PREFACE

In answer to a demand for a new edition of the Gazetteer of the Maritime Provinces and Newfoundland—a demand created by changes revealed only by comparison with the one issued in 1911, we have been induced to prepare this revised edition which, while containing more information than its predecessor has been condensed into smaller compass making it more convenient for use.

Among the new Features of this edition, special attention is called to the Advertisers' Classified Section, the Canadian Customs' Tariff, Newfoundland Customs' Tariff and the Abstract of Collection Laws for each Province.

The Publishers here acknowledge their indebtedness to all who have in any way forwarded the work. They also express their thanks to one and all of the advertisers and subscribers who responded to make this work a "Grand Success;" so much so that we find when this very large edition is supplied to the advertisers and subscribers few will be left.

*Were in last House of Assembly.

A Representative Assembly was first granted to this Colony in 1832, under the Governship of Sir Thomas Cochrane. By the Constitution nine Districts were established, retaining fifteen members, who were to hold their seats during Her Majesty's pleasure. In 1838 members of the Assembly were elected for four years, and this term has been adhered to since that date. In 1854, upon the granting of Responsible Government, the number of members was increased at the instance of the Imperial Government, to thirty. In 1874, the membership was further increased to thirty-one, by the addition of one member to the number of those representing the District of Twillingate and Fogo. In 1882 the number of members was increased to thirty-three, by the erection of St. George and St. Barbe into Districts, with one member each. In 1885, after the publication of the Census of 1884, a partial redistribution took place. The District of Twillingate and Fogo was divided, Twillingate retaining three members, Fogo was given one. Bay-de-Verde, to which was added part of the then District of Trinity, was allowed an additional member, as was also Harbor Grace. These alterations increased the number of members to thirty-six.

Similar affidavits sworn to within the Province may be sworn before the Justice entitled to preside in the respective Court, and before Commissioners of the Supreme Court, and in special cases before a Barrister or Justice of the Peace.

Arrest for Debt.—Under execution on judgments was abolished by the Acts of Nova Scotia 1894, in the Supreme, County Probate, City, Civil, Stipendiary Magistrates, Justice, ot Justices' Courts, of the Province, but provision was thereby made for the examination of debtors against whom execution had issued, by commissioners who have power to commit a debtor to prison for a term not exceeding 12 months in case of fraudulent contraction of debt, or fraudulent disposition of property or wilful and malicious tort. Capias can issue in the first instance for the arrest of persons about to leave the jurisdiction, and also in the first instance in the Supreme Court in amounts of $20 and upwards, in the County Court in debt of $20 to $800 and in damages up to $400, and in Magistrates' Courts from $4 to $80.

Assignments.—Until the passing of the Act, N. S., 61 Vic., Chap. 11. R. S. 1900 Chap. 145, a debtor could make an assignment by deed to trustees for the benefit of his creditors, giving preferences if he so desired. By this Act, which came into effect July 1st, 1898, no person being at the time in insolvent circumstances, or unable to pay his debts in full, is allowed to give any preferences either by concession of judgment or otherwise, and such preferences are null and void against the creditors of the party giving the same. The act is very similar to that in force in the Province of Ontario, and in the abstract of the assignment and collection laws in force in said Province of Ontario a very full and careful synopsis of the same may be found.

Attachments.—Attachments or property are allowable only (1) In suits against absent ot absconding debtors. (2) In suits against foreign companies doing business within the Province.

Bills of Sale or Chattel Mortgages.—Are governed by the provisions of Chap. 142 of the Revised Statutes 1900 and must be filed and renewal statement also filed every 3 years to make them operative against third parties, in the office of the Registrar of Deeds for the registration district in which the grantor, if a resident of Nova Scotia, resides at the time of the execution thereof, or if he is not a resident of Nova Scotia, then in the Registry of Deeds for the district where the goods are deposited, and must be accompanied by an affidavit of *bona fides*, etc., in the statutory form. The same applies also to chattel mortgages and bills of sale to cover future acquired property.

Claims Against Estates of Deceased Persons.—Should be proved by affidavit which shall be sworn by the claimant, or in his absence from the Province by his agent, before the Registrar of Probate, a Commissioner, or a Justice of the Peace. Such claims should be presented within one year from the date of the granting of letters of probate or administration, and if it is desired to prevent the operation of the Statute of Limitations,

the creditor should file a copy of his claim with the Registrar of the Probate Court by which such letters or probate of administration were granted.

Commissions to take Testimony.—Orders to take evidence by commission may be obtained from any of our courts, except of those of justices of the peace and stipendiary maistrates.

Conditional Sales.—Contracts for hiring, lease, bailment or bargain for the sale of personal chattels accompanied by an immediate change of delivery where the property in the personal chattels or in the case of a bargain for sale that a lien for the price or any part of it shall remain in the person letting to hire, the lessor, bailor, or bargainor until payment in full, shall be in writing showmig the terms of the agreement and be signed by the personal to whom such personal chattels are hired, the lessee, bailee, bargainee, or his duly authorized agent and shall have printed therein the post office address of the person letting to hire, lessor, bailor, or bargainor, and within ten days after delivery of such chattels a true copy of such instrument in writing must be filed in the registry of deeds for the registration district in wlch the person to whom such personal chattels are hired, the lessee, bailee or bargainee resides at the time of the execution thereof, and shall be accompanied by an affidavit of bona fides. If a copy of said instrument is not filed within the time mentioned, the person letting to hire, lessor, bailor or bargainor, is not protected against judgment creditors, purchasers and mortgagees of the person to whom such personal chattels are hired of the lessee, of the bailee, or the bargainee. The provisions of the act extend to contracts made outside the Province of Nova Scotia.

Contracts of Married Women.— Married women are liable to the extent of their separate estate for all contracts. They are liable for antenuptial debts to the extent of their estate. Unless a married woman before engaging in trade files her husband's consent under the provisions of Section 18 of Chap. 112, R. S., 1900, all her property employed in such trade may be taken in execution against her husband.

Deeds and Mortgages.—When executed in the Province must be witnessed by one witness at least. Before the instrument can be recorded the witness must make oath that the grantor signed the same in his presence, or the parties executing must acknowledge under oath the execution thereof. This oath can be administered by a justice of the peace, a notary public, the registrar of deeds for the district where the land lies, a barrister of the Supreme Court, or a judge thereof. Deeds and mortgages may be proved out of the Province, as well in foreign countries as in the British Dominions, by the oath of a subscribing witness, to be administered by commissioner appointed to take affidavits out of the Province, by a judge of any court of record, a mayor or recorder of any city or a notary public, who shall certify to the attestation. If the proof is to be made in a foreign country, any public minister, ambassador consul or vice-consul from the Court of Great Britain may administer such oath. To make deeds, mortgages, grants, attachments, or judgments effective against lands they must be recorded in the registry of deeds for the district wherein the lands lie, or they will be void against purchasers for value and without notice who shall first record their instruments. Deeds and mortagges of married women must comply with the provisions of Chap.113 of the Revised Statutes of Nova Scotia.1900.

Execution.—Execution upon a judgment for payment of money or costs can issue immediately after judgment, unless expressly otherwise ordered by the court or judge. Execution can only be stayed by order of the court upon grounds satisfactory to the court. Writ of execution is good in Supreme and County Courts for one year if not carried out, and it may be renewed at expiration of the year, or a new execution issued.

Exemptions.—The necessary wearing appaiel. beds, bedding and bedsteads of debtor and his family, stove and pipe therefor, craneand appendages, pair andirons set cooking utensils, pair tongs, six knives, six forks, six plates, six saucers, one shovel, one table, 6 chairs, one milk jug, one tea pot, six spoons, one spinning wheel, one weaving loom, if in ordinary domestic use, ten volumes of religious books, one water bucket, axe saw, such fishing nets as are in common use, not exceeding in value $20, all necessary fuel, meat, fish, flour and vegetables for family use, enough for thirty days' consumption and not exceeding in value $40, cow, two sheep, and hay and food therefor for thirty days, tools and implements of or chattels ordinarily used in the debtor's occupation to the value of $30. No real estate.

Garnishee.—After recovery of a judgment in the Supreme Court the judgment creditor may attach any debts owing or accruing from any person or persons to the judgment debtor, and service or an order of a judge on any such person or persons called the Garnishee shall bind such debts in the hands of such garnishee, but no wages of any servant, laborer, or workman shall be attached unless the amount of such wages exceeds $40, and such attachment shall only bind the surplus of such wages over and above the sum of $40.

Holidays.—In all matters relating to bills of exchange the following are legal holidays: Sundays, New Year's Day, Good Friday, Easter Monday, Christmas Day and Labor Day; also any day appointed a public holiday by the Governor, or by statute. When the last day of grace falls on a holiday, the next day shall be the last day of grace. The same law applies to presentation of bills of exchange and promissory notes.

Interest.—Interest cannot be charged on open accounts, except by a valid agreement or an established course of dealing in which it has been paid or acknowledge by debtor.

Judgments.—Judgments may be obtained during the vacation of court when suits undefended, as well as at other times. They can be obtained in ten days after sercvices

when the defendant resides in any part of Nova Scotia. When the defendant resides out of the Province judgment may be entered on the expiration of the time allowed defendant to appear, which is limited by the court. Judgments are good for twenty years from their date.

Jurisdiction of Courts.—Supreme Court has jurisdiction downwards to $20, in all matters of contract. County Court has jurisdiction in all matters of contract and tort where the amount claimed is not less than $20 nor more than $800 in contracts and $100 in tort. Justices courts have jurisdiction in all matters *ex contractu* up to $80.

Limitation of Actions.—Actions for trespass in assault, battery, wounding or imprisonment, and all actions of slander or libel, must be brought within one year. Actions in trespass to lands, assumpist, detinue, trover replevin, debt founded on any contract, express or implied without specialty, for rent account and on the case, within six years Actions to enforce judgments, or lien, or mortgages or otherwise chargeable on any land, or rent, or any legacy, and actions on any deed, covenant or nstrument under seal or to recover land, shall be brought within 20 years. Acknowledgment in writing or part payment will extend the period of limitation.

Mechanics' Liens.—Mechanics unless they sign an express agreement to the contrary may have a lien for work and material furnished in the construction. alteration or repair of any building, erection, road, railway, wharf, bridge, mine, pavement or sewer upon the property with respect to which any work was done or materials furnished. If the lien is claimed by a sub-contractor, the amount claimed in respect to the lien as limited to the amount payable to the contractor. In cases where the estate charged by the lien is a leasehold to fee simple may also be charged with consent of the owner of the fee simple. Unregistered liens cease after thirty days from the furnishing of the goods or labor unless proceedings are instituted to realize claim. Registered liens cease after ninety days from date of goods or labor last furnished, unless proceedings are taken. Claims may be sued for in County Courts. Proceedings are begun by filing a statement of claim verified by affidavit in the office or prothonotary or clerk and writ of summons. In default of payment of amount sued for property may be sold. The lien holder's right of lien passes to the legal representative of the lien holder.

Partnerships.—All persons associated in partnership for trading, manufacturing, or mining purposes, and every person who is engaged in any such business and use as his business style some name or designation other than his own name, or uses his own name with the addition of the word "and Company" or some other word or phrase indicating a plurality of members in the firm, are required to file, in the Registry of Deeds for the Registration District in which the business is carried on a delaration in writing containing the name, surname, addition and residence of each of such partners or of the persons so carrying on business under said firm name or style and the firm name or style under which the business is carried on or intended to be carried on, and such declaration is required to be filed in such registry of deeds within three months next after the formation of such partnership or the date when such firm name or style was first used.

Limited Partnerships.—Provision is also made by the laws of Nova Scotia for the formation of limited partnerships for the transaction of business, with the exception of a banking or insurance business. Such partnerships may consist of one or more persons or general partners, who shall have the full usual responsibility of general partners and of of one or more partners who shall contribute in actual cash payment a specific sum as capital, called special partners, and such special partners shall not be liable for the debts of the partnership beyond the fund so contributed by them to the capital except in certain cases specifically provided for. Persons desirous of forming such partnerships are required to make and severally sign a certificate containing particulars of the names of the firm, the nature of the business, the names of the partners, their places of residence, the amount of capital whch each partner has contributed, and the period at which the partnership is to commence, and at which it will terminate. Such certificate must be proved and filed in the office of the Registrar of Deeds for the registration district where the principal place of business of the partnership is situate. The certificate must also be verified under oath, which affidavit of verification must be filed at the same time in the Registry of Deeds and publication of the terms of such partnership must be made in the *Royal Gazette* and one other newspaper published in Halifax and by hand bills posted up in the places in which the business of the partnership is carried on.

Verification of Contracts.—This is unnecessary.

Wills.—Cannot be legally made by persons under 21 years of age. A married woman can make a will without her husband's consent. All wills must be in writing and signed by the testator, or by some one duly deputed in his presence to make the signature at the foot of the will. The due execution thereof must be acknowledged in the presence of two or more witnesses who, in the presence of testator and of each other, subscribe the instrument as witnesses. Marriage revokes a will, except when made by virtue of a power of appointment, or where it is declared in the will that same is made in contemplation or marriage, or where the husband or wife of testator elects to take under such will by instrument in writing executed and filed in Probate Court within a year after testator's death, but a change of residence does not. A will only speaks from the death of the testator. Estates are liable to succession duties to amounts fixed by statute, which are changed from time to time by the Legislature.

ABSTRACT OF COLLECTION LAWS

NEW BRUNSWICK

Abolition of priority Among Execution Creditors.—The Creditor's Relief Act of 2nd Edward the VIIth. Chap. 111, A.D. 1902, abolishes priority among execution creditors. If sheriff levies money on an execution against a debtor where the amount endorsed to levy is upwards of $200 of it the debtor permit such execution under which any of his goods are seized to remain unsatisfied in the sheriff's hands till within two days of the time fixed for the sale, or for twenty days after seizure, or allows execution endorsed as aforesaid against his land to remain unsatisfied for nine months; proceedings under this Act may be taken by other creditors whether their claims are overdue or not and upon duly filing certificates of their claims with the sheriff, any money which he holds or which shall afterwards be received by him upon any levy against the said debtor is distributed ratably among such creditors as have filed their certificates.

Arrest.—Upon making an affidavit setting forth the cause of action, and the amount due, and that the arrest is not made for the purpose of vexing or harassing debtor, arrest can be made on first process, but not after judgment, unless by order of judge, upon showing fraud or false pretences or that defendant has means to pay judgment, or is about leaving the Province. to the prejudice of plaintiff. After arrest defendant is entitled to his discharge upon making a disclosure showing no property.

Assignments.—Until the passing of the Act N. B., 58 Vic. cap. 6, a debtor could make an assignment by deed to trustees for the benefit of his creditors giving preferences if he so desired. By this Act which was passed on the 5th of March, 1895, and came into force at that date, no person being at the time in insolvent circumstances or unable to pay his debts in full, is allowed to give any preferences either by confession of judgment or otherwise, and such preferences are null and void against the creditors of the party giving the same. The act is very similar to that in force in the Province of Ontario, and in the abstract of the assignment and collection laws in force in said Province of Ontario every full and carefully prepared synopsis of the same may be found.

Attachments.—The property of an absconding, absent or concealed debtor upon application of a creditor for $40, and upwards, may be attached. No other attachment-laws. (See Garnishee.)

Chattel Mortgages or Bills of Sale.—They require to be filed within thirty days of the date of execution, otherwise are void as against third parties, and must be renewed every twelve months by the mortgagee filing a statement showing the amount still due for principal and interest and also of all payments made on account; and in case of failure to file such statement and affidavit within the time aforesaid any creditor or the mortgagor may by a written noticed served upon such mortgagee require him to file such statement and affidavit, and if same are not filed within thirty days after service of such notice-then such mortgagee shall cease to be valid as against any execution against the goods and chattels of the mortgagor issued at the suit of such creditor. They must be filed with the registrar of deeds for the county in which the maker resides, if resident within the Province, and if a non-resident, then in the county in which the goods may be. This does not apply to bills of sale or mortgages of vessels registered under the shipping acts, nor to bills of lading, warehouse receipts and other liens created under the Dominion Bank Act.

Commissions.—Commissions to take evidence are issued from courts of record, viz: —The supreme and county courts.

Conditional Sales of Chattels.—By the New Brunswick Status 62 Victoria Chap. xii, receipt notes, hire receipts, and orders for chattels given by bailees of chattels where the condition of the bailment is such that the possession of the chattel passes without any ownership therein being acquired by the bailee until the payment of the purchase or consideration money or some stipulated part thereof are only valid as against subsequent purchasers or mortgages without notice in good faith for valuable consideration in the case of manufactured goods for chattels, which at the time possession is given to the bailee have the name and address of the manufacturer, bailor or vendor of the same printed thereon or attached thereto, and no such bailment shall be valid as against such subsequent purchaser or mortgagee as aforesaid unless it is evidenced in wrinting signed by the bailee or his agent, and a copy of such wrting filed with the registrar of deeds of the county in which the bailee or conditional purchaser resided at the time of the conditional purchase writing. The registrar files such writings upon payment of ten cents for every such filing.

Executions.— Issue immediately on signing final judgment in the supreme and county courts, and when deposited in the sheriff's office, binds the goods, chattels, lands, and premises of the debtor. A memorial of the judgment being filed in the registrar's office becomes a charge upon the real estate for five years. The sheriff must first exhaust the personal property before selling the real estate, and must return the execution on the return day thereof.

Exemptions.—Wearing apparel, bedding, kitchen utensils, tools of trade to the value of $100.

Garnishee.—A judgment creditor upon a judgment obtained in the supreme or county court, when the amount remaining due exceeding $80, may obtain an attaching order. garnisheeing debts or sums due and owing to the judgment debtor. Wages due to the judgment debtor for his personal labor or services to the extent of $20, exempt from garnishment.

Interest.—If no rate be mentioned, five per cent. can be collected, although any rate agreed upon between the parties is legal. Interest cannot be charged upon an open account unless by agreement to that effect. Bill and notes carry interest after their maturity; judgments also carry interest at the rate of five per cent.

Judgments.—Judgments are obtained in county courts. if no defense, in thirty days. and in Supreme Court in sixty days. Judgments may be obtained in vacation. Judgments in county courts and superior courts only can be made liens on land. Judgments are good for twenty years. In all cases where the defendant resides within the jurisdiction of the court and the action is upon a bill of exchange, promissory note or cheque, or on a bond or contract under seal for payment of a liquidated amount of money, the plaintiff may issue a writ of summons with a special endorsement of the particulars of his claim thereon. and may sign final judgment and issue execution thereon if the defendant does not appear within twenty days after service upon him. If the defendant appears to a writ of summons so specially endorsed, the plaintiff may on an affidavit made by himself or by any other person who can swear positively to the debt or cause of action, and stating that in his belief there is no defense to the action obtain from a judge in chambers a summons calling upon the defendant to show cause why the plaintiff should not be at liberty to sign final judgment for the amount so endorsed, together with interest (if any) and costs. The judge may upon return of the summons, unless the defendant by affidavit or otherwise satisfies him that he has a good defense to the action on the merits or disclosed such facts as may be deemed sufficient to entitle him to defend the action, make an order empowering the plaintiff to sign judgment forthwith.

Jurisdiction of Courts.—Magistrates $20. in tort $8; parish courts $80 in debt, $32 in tort; county courts $20 to 400 in debt, $200 in tort; supreme court $400 and upwards.

Legal Holidays.—Sundays, New Year's Day, Good Friday, Easter Monday, Queen's Birthday (May 24th), Dominion Day, (July 1), Christmas Day, and any day appointed by proclamation for a public holiday or general thanksgiving. If any of these days falls on a Sunday then the next following day is held. Bills of exchange and promissory notes falling due on any of these days are legally due on the next following day, not being a holiday.

Liens in Favor of Banks authorized by the Laws of the Dominion of Candaa. (See this title under the Laws of Ontario. The law is a general one applicable to all the Provinces of the Dominion.)

Limitations.—Notes and accounts are barred by statute in six years.

Married Women.—Are competent to make binding contracts on themselves or their property. By "The Married Women's Property Act" acts of the New Brunswick General Assembly, 1895, Chap xxiv., which act came into force on the first day of January, A. D., 1896, a married woman is capable of acquiring, holding, and disposing by will or otherwise of any real or personal property as her separate property in the same manner as if she were a *feme sole*, without the intervention of any trustee. She is also capable of entering into and rendering herself liable in respect of and to the extent of her separate property on any contract, and of suing and being sued in all respects as if she were a *feme sole*, and her husband need not be joined with her as plaintiff or defendant or be made a party to any action or other legal proceeding brought by or taken against her; and any damages or costs recovered by her in any such action or proceeding, shall be her separate property, and any damages or costs recovered against her in any such action or proceeding, shall be payable out of her separate property and not otherwise. Every contract entered into by a married woman otherwise than as agent, is deemed to be a contract entered into by her in respect to and to bind her separate property, whether she is or is not in fact possessor of or entitled to any separate property at the time when she enters into such contract, and such contract binds all the separate property which she may have at that time or thereafter be possessed of or entitled to. It is, however, expressly provided that nothing contained in the act shall prejudice the husband's tenancy or right to tenancy by the curtesy in any real estate of the wife.

Mechanics' Liens.—Unless he signs an express agreement to the contrary every mechanic, machinist, builder, laborer, contractor or other person doing work upon or furnishing materials to be used in the construction, alteration or repair of any building or erection, or erecting, furnishing or placing machinery of any kind in, upon or in connection with any building erection or mine, shall by virtue of being so employed or furnishing have a lien for the price of the work, machinery or materials upon the building, erection or mine and the lands occupied thereby or connected therewith. The claim of lien must be registered in the office of the registrar of deeds and where a lien is for wages it may be registered at any time within thirty days after the last day's labor for which the wages are payable.

Partnerships.—All persons carrying on business as general partners in the Province are required to file in the office of the registrar of deeds for the county in which the

co-partnership business is carried on a certificate containing the name or firm of the co-partnership, and the names and respective places of residence of the different partners, and in case of neglect or refusal to do so may be made to forfeit or pay to the county-treasurer the sum of sixty dollars, and also the further sum of ten dollars per day for each and every day's neglect or refusal after notice from any ceditorrs of the firm.—con. Stat. N. B., chap. 97

Limited Partnerships.—Limited Partnerships for the transaction of all business may be formed by two or more persons, consisting of one or more general partners and one or more special partners. The special partners contribute to the common stock a specific sum in actual cash payments as capital, and are liable for any debts of the partnership only to the extent of such contributions. A certificate containing the name or firm of the partnership, and the names and respective places of residence of the general and special partners, with particulars of capital contributed, etc., must be filed in the office of the registrar of deeds in the county where the partnership business is principally carried on, and publication must be made in some public newspaper, or in the *Royal Gazette*, for three months immediately following such registry. If such publication be not made, the partnership shall be deemed general. The business of the partnership must be conducted by the general partners under such firm name as they shall adopt, and if the name of any special partner be used as such firm name or, part of the same, with his consent and privity and without the addition thereto of the words "special partner," he shall be deemed and treated as a general partner. In case of the insolvency or bankruptcy of the partnership no special partner is allowed to claim as a creditor until the claims of all the other creditors of the partnership have been satisfied.—Stat. N. B.. 52 Vic. chap.

Verification of Accounts.—Claims against estate of deceased person must be attested to; against insolvent estate must be verified bu statutory declaration.

Commercial Travelers' License Laws.—Commercial travelers' licenses are collected in Woodstock only.

ABSTRACT OF COLLECTION LAWS

PRINCE EDWARD ISLAND

Actions.—Actions may be brought in the Supreme Court for any debt of not less than $32.00. County Courts have jurisdiction in matters of debt up to $150.00. In all suits brought by firms, names of partners must be used. Action cannot be brought in the firm name nor can an assignee of a debtor chosen in action, sue in his own name, but must sue in the name of the assignor. Actions of debt in the Supreme Court are commenced by writ of summons, which may in special cases be specially endorsed. When specially endorsed the plaintiff may sign judgment eight days after service of writ, in default of appearance. Actions in the County Court are commenced by summons and such suits are tried with out pleadings.

Arrest.—In an action of debt in the Supreme Court or County Court, upon an affidavit made by the plaintiff setting forth the cause of action as in affidavit to hold to bail. and showing such facts and circumstances as will satisfy a judge that there is reasonable and proper cause for believing that the defendant is about to quit the Province with intent to defeat or delay his creditors or the plaintiff in particular the judge may order the debtor to be arrested and held to bail. A judge of the Supreme Court or County Court may, after a judgment, order debtor's examination, and if it appears that he has sold or made away with his property fradulently or does not make satisfactory answers, his arrest may be ordered.

Assignments.—The power of giving preferential assignments by creditors is checked to a considerable extent by Act of the Legislature passed 1898, by which, confession of judgments, conveyances, assignments and delivery of chattels and securities made by any person at the time in insolvent circumstances, or unable to pay his debts in full, or knowing himself to be on the eve of insolvency to any creditors voluntarily or by collusion with intent to delay or prejudice creditors, or to give one or more creditors a preference, are declared void as against the general creditors. If a transfer to or transaction with a creditor has the effect of giving that creditor a preference, it shall with respect to proceedings taken within sixty days thereafter to impeach the same be presumed to be fraudulent, whether made voluntarily or under pressure. The Act makes provision for the appointment of official assignees to whom assignments may be made for the distribution of assets ratablys Wages of employees not exceeding three months and accounts due to farmers for farm produce sold to the assignor during three months immediately preceding the assignment are to be paid preferentially by the assignee. Assignments to any other than official assignee.

are void as against a subsequent assignment made to the offiical assignee in conformity to the act unless the consent of the majority of creditors having $100 claims is first obtained. If assignment absolute possession of goods must be taken by grantee. No assignment under this Act to be considered invalid unless proceedings to impeach same are taken within a year after registration. If assignment is by way of chattel mortgage, same must be registered in county in which grantor resides and affidavit by the grantee for his agent is required, stating that security was given *bona fide* for consideration stated and not to defeat other creditors. An execution creditor or mortgagor may pay mortgagee amount of his claim and sell goods under execution. The object of the Act to prevent preferential assignments is frequently defeated by a debtor allowing a favored creditor to obtain a judgment by default for want of appearance, and by appearing and preventing other creditors from obtaining judgment until the sitting of the Court, which may be some months after the judgment is recovered by default.

Attachments.—Debtors' lands or goods cannot be attached until after judgment unless debtor has absconded. In case of absent or absconding debtors property may be attached in Supreme or County Court as case may be, but the County Court has no jurisdiction to attach land of debtors. A bailable writ of Capias may be issued out of Supreme Court against a debtor about to abscond, but a judge's order for the same must be obtained upon an affidavit swearing to debt and setting out such facts and circumstances as will satisfy judge that debtor is about to leave the Province for the purpose of defrauding creditors. Capias may be issued from County Court for a debtor about to abscond, for any sum over $4, and up to $150, upon affidavit of the debt and that plaintiff believes defendant is about to leave Province to evade payment of his debt.

Chattel Mortgages.— Every bill of sale (which includes chattel mortgages) must be registered in the County where debtor resides in order to be effectial as against subsequent purchasers and mortgages or execution creditors. An affidavit verifying the indebtedness or consideration of the bill of sale must be sworn to by the grantee, and stating that the bill of sale was not given to prejudice the other creditors. Non-registration of the bill of sale does not invalidate it as between the parties and there is no particular time within which it is required to be registered. As to bills of sale by person in insolvent circumstances, see under heading "**Assignments.**"

Commercial Travellers.—Commercial traveller for liquor not being resident of Prince Edward Island, must not take or solicit orders for the sale of liquor within the Province to be imported into the Province or exported therefrom, until he pays the Provincial Treasurer an annual license fee of $200. A penalty of $500 is provided for selling liquor without such license. The vendor of such liquor cannot recover the price of same against any debtor in the Province unless such license fee has been paid by the traveller.

Companies.—Taxes are imposed upon Insurance, Loan and other companies doing business in the Province varying according to the nature of the business carried on. Companies not enumerated in the Act, as well as partnerships and individuals, whose principal office and organization is not within Prince Edward Island doing business there by themselves or by their agent residing in the Province, by selling goods in the Province or by soliciting or canvassng for orders either by themselves or by their agent residing in the Province, for the sale, exchange or purchase of any goods within the Province either by the production of samples, photographs, catalogues, printed or written matter or simply by word of mouth without the production of sample, photographs, catalogues, printed or written matter are required to pay an annual tax of $100 each payable semi-annually on the 1st June and 1st December in each year. Every Company liable to pay such tax is also required before commencing business, to file with the Provincial Treasurer, a certified copy of its charter and regulations showing its authority to carry on the business in the Province. Such company is also required to file a sworn statement with the Provincial Treasurer, at the time it commences business in the Province and on the 1st April in each year thereafter, showing that the Company is still in existence and legally authorized to transact business under its charter and containing information showing (a) The corporate name of the Company; (b) How and under what special or general Act the Company was incorporated; (c) Notice of the place where the head office without the Province is situated; (d) Notice of the City, Town and County in Prince Edward Island where the head office of the Company in that Province is situated or proposed to be situate; (e) The amount of the authorized capital stock of the Company; (f) The number of shares into which it is divided; (g) The names, addresses and occupations of each of the Directors and Officers of the Company, and of the agent or person in charge of the Company's business in this Province; (h) The time of the existence of the Company if incorporated for a limited period; (i) In the case of a limited company, that the company is limited; (j) The amount of stock subscribed or issued and the amount paid up thereon; (k) In the case of an insurance company a copy of the last balance sheet and auditor's report thereon. Failure or neglect to file the copy of charter or affidavit renders the Company liable to a penalty but does not prohibit the Company.

Executions.—Under executions from the County Court, personal property only of the debtor can be sold. Under executions from the Supreme Court debtors' lands as well as his personal property may be sold. Executions against personal property rank in order or priority. The lands of the debtor are bound by the judgment from the day of filing of a minute of the judgment.

Exemptions.—Necessary wearing apparel and bedding of a debtor and his family and the tools or instruments of his trade or calling (£5 old currency) $16.20 in money, and his last cow, are exempt from execution out of Supreme Court. Wearing apparel and bedding of debtor and his family the tools and implements of his trade, and one cooking stove and one cow, in all amounting in value to $50, are exempt from process out of County Court.

Garnishee.—A creditor may garnishee money owing to a debtor by a third party both before and after judgment by process through any Supreme Court or County Court.

Interest.— Where not otherwise agreed upon and where due by law is 5 per cent. No usury law.

Judgments.—Are good for twenty years if entered in the Supreme Court. Judgments in the Supreme Court bind the real estate of defendant from date of entry providing a minute is filed. A minute must be entered every ten years to preserve its priority. Lands cannot be sold or affected by County Court Judgments.

Liens.—Lien notes and hire receipts given for manufactured goods or chattels, except household furniture; which, however, does not include pianos, organs or other musical instruments) are not valid against subsequent purchasers or mortgagees without notice for valuable consideration, unless at the time possession is given to the bailee the name and address of the manufacturer, bailor, or vendor of the same is printed, stamped or engraved thereon, or otherwise plainly attched thereto. But this does not invalidate any note, receipt or instrument evidencing the bailment or conditional sale, which is filed within ten days from its execution with the prothonotary of the Court in the county in which the bailee or purchaser resides. Articles subject to lien on the premises of a tenant may be sold by his landlord for nonpaymentof rent, which takes priority over the lien.

Liens in Favor of Banks. authorized by the Laws of the Dominion of Canada. (See this title under the Laws of Ontario. The law is a general one applicable to all the Provinces of the Dominion.)

Mechanic's Lien.—Every mechanic, machinist, laborer, contractor or other person doing work upon or furnishing materials to be used in the construction, alteration or repair of any building or erection, furnishing or placing machinery of any kind in upon or in connection with any building or erection may have a lien for the price of such work, machinery or materials, upon such building or erection and the lands occupied thereby, by filing a claim in the office of registrar of deeds, verified by both, within thirty days after completion of work.

Married Women.—Is capable of acquiring holding and disposing of any real or personal property in the same manner as if she were a *feme sole* and may enter into contracts and render herself liable in respect, and to the extent of her separate property.

Partnership.—For the transaction of mercantile mechanical and manufacturing business in the Province, excepting banking and insurance must be registered and no suit or action may be brought in the Province for any debts due the partnership until a certificate shall be registered.

Rent.—Where goods are seized under execution the landlord of the premises on which the goods are found may claim one year's rent in priority to the claim of the execution creditor.

Sales, Conditional of Chattels.—(See Lien Notes).

Stock Brokers.—Companies, firms or individuals engaged in buying or selling stocks, shares, bonds or debentures are required to pay a tax and to file with the Provincial treasurer before offering such stocks, etc., for sale a copy of the charter and regulations (or proposed charter and regulations if not then incorporated) of every corporation whose debentures, bonds, stocks or shares are about to be bought or sold, with an affidavit containing certain information about such corporation.

Wages.—Three months' wages are preferred in case of assignment for benefit of creditors. One half the amount due for wages may be attached under garnishee proceedings.

ABSTRACT OF COLLECTION LAWS

NEWFOUNDLAND

Affidavits.—In causes or matters depending in the Supreme Court affidavits may be sworn in any part of His Majesty's dominions, before any judge, court, notary public, or other person lawfully authorized to administer oaths, and in foreign parts before any British consul or vice-consul.

Arrest.—In any action where the sum of $50 or upwards is involved, a judge may order a warrant for the arrest of the debtor, at any time after writ issued and before judgment, upon affidavit of plaintiff or his agent showing the nature of the claim and such facts as satisfy the judge that there is probable cause for believing debtor has made or is about to make some disposition of his property, or is about to quit the Colony with intent to defraud his creditors generally or plaintiff in particular, or that his absence will materially prejudice the prosecution of the action, or that he is possessed of means of payment which he withholds from his creditors. Detaining creditor must pay a certain amount per diem to sheriff for maintenance of debtor whilst under arrest.

Assignments.—Assignments and payments made or given by any insolvent within two months prior to his declared insolvency and with a view to give an undue preference to any creditor, are null and void in case the person taking or recovering the same or for whose benefit the same was taken or received had notice or was aware of the insolvency. Voluntary assignments may be made for the benefit of the creditors, but there is no law to compel same, the remedy being by petition in insolvency, upon which a trustee will be appointed by the court.

Attachments.—At any time after the issue of a writ of summons a warrant of attachment of the property debts and effects of defendant may be issued by plaintiff, upon the filing of a sufficient affidavit made by plaintiff or some person on his behalf, showing defendant to be justly and truly indebted to plaintiff in a liquidated amount of $20 or upwards in a cause of action to be therein set forth. When debts or damages are unliquidated, the court or a judge may, upon a sufficient affidavit in that behalf, stating the nature of the claim and particulars of the damage actually sustained, and showing that defendant is about to make some disposition of his property, or is about to sell or dispose of the subject matter of the action or remove same beyond the jurisdiction, order a warrant of attachment to issue.

Deeds.—All deeds affecting lands in the Colony should be registered in the registry of deeds. Such registration is not essential to the validity of deeds, but unless so registered they are void against any subsequent purchaser or mortgagee for value, who shall first register or against any trustee in insolvency, or trustee for benefit of creditors, or against subsequent attachments, either on mesne or final process. For registration deeds may be proved (a) by the acknowledgment under oath of all the parties executing from whom any interest passes. (b) by the oath of a subscribing witness or witnesses that all the parties from any interest passes executed the same in his or their presence. Such acknowledgment may be taken and oath administered within the Colony by (1) The registrar of deeds. (2) A judge of the Supreme Court. (3) The Deputy Registrar or any clerk appointed under the registration of Deeds Act. (4) A commissioner of the Supreme Court. (5) A Justice of the Peace; and without the Colony by (1) A Judge of a Court of Record, under the seat of such Court. (2) The Mayor or Chief Magistrate of any city or town under the seal of such city or town. (3) A Notary Public under his official seal. (4) Any of His Majesty's Consuls or Vice Consuls. (5) A Commissioner of the Supreme Court of Newfoundland. It is unnesessary to prove or certify the seal or signature of any of the above officials. In any case either within or without the Colony the execution of a deed by the parties thereto in the presence of any of the persons authorized to take the acknowledgment of such parties may be substituted for such acknowledgment under oath and the usual certificate should be varied accordingly.

Executions.—Execution may be levied upon moneys, bank notes, bills of exchange, cheques, debentures, bonds and other securities for money, chose in action, equitable interests in property real or personal and all other property and effects whatsoever. Debts and goods may be garnished in the hands of third parties. Writs of execution remain in force for one year, but may be renewed before expiration for another year and so on from time to time.

Exemptions—From attachment, execution, distress for rent and from operation of insolvency laws; working tools and implements of trade, fishing skiff or punt, necessary cooking apparatus, bedding and wearing apparel of debtor and his family.

Interest.—Interest at the rate of 6 per cent. may be allowed by the jury on debts or sums certain due by virtue of a written instrument at a certain time, or if payable otherwise then from the time when demand of payment shall have been made in writing, so as such demand shall give notice to the debtor that interest will be claimed from the date of such demand until the time of payment.

Judgment.—May be had four days after service if defendant resident in St. John's; if resident elsewhere in the Colony eight days after service. When the defendant is resident outside the Colony, appearance must be entered within time allowed by court, failing which judgment may be entered. Execution on judgment may issue at any time within six years after which time an order for leave is necessary. Judgment carries interest at five per cent.

Jurisdiction of Courts.—1. All Magistrates and two or more Justices of the Peace have jurisdiction to hear and determine in a summary way all civil actions for recovery of debt or damages to the amount of $200, except actions for malicious prosecution and actions against Justices or public servants for acts done in discharge of their duties. An appeal lies to next sitting of the Supreme Court in cases where over $20 is involved in the judgment. Magistrates or two or more Justices also have jurisdiction to any amount concerning the wages of laborers engaged in lumbering or mining, of servants in the fisheries, the supplying of bait, the hiring of boats for the fisheries and the wages or shares of seals of any person engaged in the seal fishery, but in case of damages for wrongful dismissal in connection with seal fishery jurisdiction is limited to $40. 2. The Supreme Court has jurisdiction over all causes and matters to any amount. Appeal from the Supreme Court lies to the Privy Council where amount over $2,000 are involved.

Married Woman's Property Act.—Under this married women may trade on their own account without husband's consent, and are liable to the insolvency laws. They may acquire, hold and dispose of property without intervention of trustees. Generally our law, statutory and otherwise, is the same on this subject as that of England.

Mechanics' Liens.—Unless he signs an express agreement to the contrary every mechanic doing work or furnishing material for the construction of any building, etc., may have a lien upon the building and lands occupied therewith. In cases of leasehold the freehold may also be charged by consent of the owner thereof. The amount chargeable by sub-contractors is limited to the amount payable to the contractor or sub-contractor as the case may be. The owner may pay parties having an unpaid account or demand against the lien holder in respect of work done or materials furnished for the building, upon receiving notice within thirty days of same, and such payment is deemed a satisfaction *pro tanto* of such lien. The lien must be registered during the progress of the work, or within thirty days of completion, and proceedings to enforce it must be taken within ninety days from completion.

Commercial travelers are not required to take out any license in this Colony.

CANADIAN CUSTOMS TARIFF

All articles from Germany and Austria-Hungary are prohibited pending duration of War.

corrected to October 1919

His Majesty, by and with the advice and consent of the Senate and House of Commons of Canda, enacts as follows:

CUSTOMS WAR REVENUE ACT 1915

Referring to Memo 1899-B of Feb. 12, 1915, and Memo. No. 1899-B of March 17, 1915, hereby cancelled, regarding Tariff Resolutions introduced in Parliament, the Amendments made to the Customs Tariff, 1907, during the Present Session of Parliament, are set as forth in the Customs Tariff War Revenue Act 1915, assented to on the 8th April, 1915, and hereto appended.

Customs duties are to be collected and levied accordingly.

The "War Tax" of 5 per cent. *ad valorem* Preferential or 7½ per cent *ad valorem* Intermediate and General provided for in this Act is to be computed for the whole entry, on a separate line at the bottom of the entry, thus:

	Value	Rate	Duty	Tariff
War Tax	$	5%	$	Preferential
War Tax	$	7½%	$	General

There is also appended hereto for convenience of reference, an explanatory list of articles *exempt* from the War Tax of 5 and 7½ per cent. *ad valorem*.

Stamp Duties on non-sparkling wines and on Champagne and sparkling wines sold in Canada on and after February 12, 1915, and on proprietary or patent medicine and on perfumery consumed on and after April 15, 1915, are to be collected by the Department of Inland Revenue.

The stamps above provided for are to be affixed and cancelled by the importer who is a *consumer*, while the articles are in the custody of the proper officer of Customs.

Customs officers, however, may deliver these articles without duty stamps affixed thereto, when the articles are not to be *consumed* by the importer but held by him for sale

In such cases the following notation made on the face of the entry shall be signed by the importer or his agent, (viz:—) are not for consumption by the importer, but for use otherwise.

A memorandum is hereto attached containing extracts from the Special War Revenue Act, 1915, as affecting stamp duties on non-Sparkling Wines, Champagne, Sparkling Wines, Proprietary or Patent Medicines and on Perfumery. Duty stamps are not required to be affixed to the articles described in this paragraph, when delivered ex-warehouse as ship's stores or for exportation or for war vessels.

Customs official cheques are not subject to stamp duty in Canada.

JOHN M. DOUGALL,
Commissioner of Customs.

NOTE—All goods subject to entry under the British Preferential Tariff are now exempt from the 5 per cent War Tax of 1915.

AN ACT TO AMEND THE CUSTOMS TARIFF, 1907.

Assented to 8th April, 1915.

STAMP DUTIES GENERAL.

19. The Minister, except as herein otherwise provided, may direct stamps to be prepared for the purposes of this Part of such kinds and bearing respectively such devices as he thinks proper, and all sums received for stamps and paper stamped by means of a die under this Part shall form part of the Consolidated Revenue Fund.

2. The device on each stamp shall express the value thereof, that is to say, the sum at which it shall be reckoned in discharge of the obligation to affix or impress stamps under this Part.

3. Postage stamps of the requisite value may, in lieu of stamps prepared under subsection 1 of this section be used in fulfilment and discharge of any requirement under this part that adhesive stamps be affixed.

4. In any case in which an adhesive stamp is required to be cancelled, and it is not otherwise specifically provided, such stamp shall be deemed to be cancelled if lines or marks are drawn across or impressed thereon so as to effectually render the stamp incapable of being used for any other instrument.

5. The Minister may appoint any collectors of Inland Revenue, post-masters or other officers of the Government or other persons to sell stamps prepared for the purpose of this Part.

6. The Governor in Council, except as herein otherwise provided, may by regulation fix and determine the remuneration to be allowed to persons appointed to sell stamps prepared for the purposes of this Part.

7. The Minister, except as herein otherwise provided, may make such additional regulations as are deemed necessary for carrying out the provisions of this Part.

8. The provisions of this Part, in so far as they relate to wine of the grape, non-sparkling, champagne and sparkling wine, shall be deemed to have come into force on the twelfth day of February, 1915.

1. This Act may be cited as *The Customs Tariff* 1907.

2. In this Act, and in any other Act relating to customs, unless the context otherwise requires,—

(*a*) "M. ft." represents and has the meaning of the words "one thousand feet board measure."

(*b*) "n.o.p." represents and has the meaning of the words "not otherwise provided for.'

(*c*) "gallon" means an imperial gallon.

(*d*) "ton" means two thousand pounds avoirdupois;

(*e*) "proof," "proof spirit" or proof" spirits", when applied to wines or spirits of any kind, means spirits of a strength equal to that of pure ethyl alcohol compounded with distilled water in such proportions that the resultant mixture shall at a temperature of sixty-two degrees Fahrenheit have a specific gravity of 0.9187 as compared with that of distilled water at the same temperature:

(*f*) "gauge" when applied to metal sheets or plates or to wire, means the thickness as determined by the Imperial Standard Gauge;

(*g*) "in diameter" when applied to tubing, means the actual inside diameter.

(*h*) "sheet," when applied to metals, means a sheet of plate not exceeding three-sixteenths of an inch in thickness;

(*i*) "plate," when applied to metals, means a plate or sheet more than three-sixteenths of an inch in thickness;

(*j*) "p.c." in any of the tariff columns in schedule A to this Act represents and has the meaning of the words "per centum, ad valorem";

(*k*) "free" in any one of the said tariff columns means that the goods opposite which the word appears, and to which the tariff in the said column applies, may be imported and taken out of warehouse or consumption in Canada, without duty;

(*l*) "iron" includes steel; "rolled iron" or "rolled steel" means iron or steel hot rolled only.

2. The expressions mentioned in section 2 of *The Customs Act*, whenever they occur herein or in any Act relating to the customs, unless the context otherwise requires, have the meaning assigned to them respectively by the said section 2; and any power conferred upon the Governor-in-Council by *The Customs Act* to transfer dutiable goods to the list of goods which may be imported free of duty or to reduce the rates of duty on dutiable goods is not hereby abrogated or impaired.

3. Subject to the provisions of this Act and of the Customs Act, there shall be levied collected and paid upon all goods enumerated or referred to as not enumerated, in Schedule "A" to this Act, when such goods are imported into Canada or taken out of warehouse for consumption therein, the several rates of duties of Customs, if any, set opposite to each item respectively or charged on goods as not enumerated in the column of the tariff applicable to the goods, subject to the following conditions, viz.:—

(1) The rates of customs duties, if any, set forth in column 1, "British Preferential Tariff, shall apply to goods the produce or manufacture of the following British countries when imported direct from any British country:—

(*a*) the United Kingdom;
(*b*) the British colony of Bermuda;
(*c*) the British colonies commonly called the British West Indies, including the following:—

the Bahamas;
Jamaica;
Turks and Caicos Islands;
the Leeward Islands (Antigua, St. Christopher-Nevis, Dominica, Montserrat and the Virgin Islands);
the Wizard Islands (Grenada, St. Vincent and St. Lucia);
Barbados;
Trinidad and Tobago;

(*d*) British Guiana;
(*e*) British India;
(*f*) Ceylon;
(*g*) Straits Settlements;
(*h*) New Zealand;
(*i*) Cape of Good Hope;
(*j*) Natal;

(*k*) Orange River Colony;
(*l*) Transvaal;
(*m*) Southern Rhodesia;
Extension of Preferential Tariff to the following countries:
Swaziland; Basutoland; Bichuanaland Protectorate; Northern Rhodesia; Nyasaland tectorate; Uganda Protectorate; East Africa Protectorate, Zanzibar Pro-Protectorate of Northern Nigeria; Colony and Protectorate of Southern Nigeria; Gold Coast; Sierra Leone; Gambia; Somaliland Protectorate; Federated Malay States; British North Borneo; Sarawak; Brunei; Mauritius and Dependencies thereof; Seychiller; St. Helena; Ascension; Friendly on Tonga Islands; Fiji; Falkland Islands; British Honduras.
(*n*) any other British colony or possession admitted to the benefit of the British Preferential Tariff in Canada, in the manner hereinafter provided.

(2) The rates of customs duties, if any, set forth in column 2, "Intermediate Tariff," shall apply to goods the produce or manufacture of any British or foreign country to which the benefits of such intermediate Tariff shall have been extended in the manner hereinafter provided, when imported direct from such foreign country or from a British country;

(3) The rates of customs duties, if any, set forth in column 3, "General Tariff" shall apply to all goods not entitled to admission under the Intermediate Tariff or under the British Preferential Tariff;

(4) Proof or origin, as prescribed by the Minister of Customs, shall be furnished with the bill of entry at the custom house for goods admitted to entry under any of the tariffs in schedule A; and the decision of the Minister of Customs shall be final as to the tariff or surtax applicable in any case to imported goods by reason of their origin;

(5) Goods for which entry is claimed under the Intermediate Tariff must be bona fide the produce or manufacture of a country which has been admitted to the benefits of the Intermediate Tariff;

(6) Every manufactured article to be admitted under the British Preferential Tariff must be bona fide the manufacture of a British country entitled to the benefits of the British Preferential Tariff, and a substantial portion of the value to the manufactured article must have been produced by labor in one or more of such countries.

4. The Governor-in-Council may, by order in council,—

(*a*) extend the benefit of the British Preferential Tariff to any British country not named in paragraph (1) of section 3, and from and after the publication of such order in council in the *Canada Gazette* the British Preferential Tariff shall apply to goods the produce or manufacture of such British country, subject to the provisions of this Act;

(*b*) withdraw the benefits of the British Preferential Tariff from any British country (other than the United Kingdom) which has received the said benefit; and from and after the publication of such order in the *Canada Gazette*, the General Tariff or the Intermediate Tariff, as mentioned in the said order, shall apply to goods the produce or manufacture of such British country subject to the provisions of this Act.

(*c*) from time to time, in consideration of benefits satisfactory to the Governor-in-Council, extend the benefit of the Intermediate Tariff, in whole or in part, to any British or foreign country the produce or manufacture of which have been previously subject to the rates of customs duties set forth in the General Tariff, and from and after the publication of such order in the *Canada Gazette* the rates of duty set forth in the Intermediate Tariff, so far as they are mentioned in the said order shall apply to goods the produce or manufacture of such Bri tish or foreign country when imported direct from such foreign country or from a British country, subject to the provisions of this Act; and

(*d*) withdraw the benefit of the Intermediate Tariff from any country to which it has been extended, and from and after the publication of such order in the *Canada Gazette* the rates of Customs duties set forth in the General Tariff shall apply to goods the produce or manufacture of such country, subject to the provisions of this Act.

5. On and after a date to be named by the Governor-in-Council, in a proclamation published in the *Canada Gazette*, the British Preferential Tariff shall apply only to goods brought into Canada by ship direct to a Canadian seaport.

6. In the case of articles exported to Canada of a class or kind made or produced in Canada, if the export or actual selling price to an importer in Canada is less than the fair market value of the same article when sold for home consumption in the usual and ordinary course in the country when exported to Canada at the time of its exportation to Canada, there shall, in addition to the duties otherwise established, be levied, collected, and paid on such article, on its importation into Canada, a special duty (or dumping duty) equal to the difference between the said selling price of the article for export and the said fair market value thereof for home consumption; and such special duty (or dumping duty) shall be levied, collected and paid on such article, although it is not otherwise dutiable.

Provided that the said special duty shall not exceed fifteen per cent ad valorem in any case;

Provided also that the following goods shall be exempt from such special duty, viz.:—

(*a*) goods whereon the diuties otherwise established are equal to fifty per cent ad-valorem.
(*b*) goods of a class subject to excise duty in Canada;
(*c*) sugar refined in the United Kingdom;

(*d*) binder twine or twine for harvest binders manufactured from New Zealand hemp istle or tampico fibre, sisal grass or sunn, or a mixture of any two or more of them, of single ply and measuring not exceeding six hundred feet to the pound.

Provided further that excise duties shall be disregarded in estimating the market value of goods for the purpose of special duty when the goods are entitled to entry under the British Preferential Tariff.

(2.) "Export price" or "selling price" in this section shall be held to mean and include the exporter's price for the goods, exclusive of all charges thereon after their shipment from the place when exported directly to Canada.

(3) If at any time it appears to the satisfaction of the Governor-in-Council, on a report from the Minister of Customs, that the payment of the special duty by this section provided for its being evaded by the shipment of goods on consignment without sale prior to such shipment, the Governor-in-Council may in any case or class of cases authorize such action as is deemed necessary to collect on such goods or any of them the same special duty as if the goods had been sold to an importer in Canada prior to their shipment to Canada.

(4) If the full amount of any special duty of customs is not paid on goods imported, the customs entry thereof shall be amended and the deficiency paid upon the demand of the collector of customs.

(5) The Minister of Customs may make such regulations as are deemed necessary for carrying out the provisions of this section and for the enforcement thereof.

(6) Such regulations may provide for the temporary exemption from special duty of any article or class of articles, when it is established to the satisfaction of the Minister of Customs that such articles are not made or sold in Canada in substantial quantities and offered for sale to all purchasers on equal terms under like conditions, having regard to the custom and usage of trade.

(7) Such regulations may also provide for the exemption from special duty of any article when the difference between the fair market value and the selling price thereof to the importer as aforesaid amounts only to a small percentage of its fair market value.

7. Articles which are the produce or manufacture of any foreign country which treats imports from Canada less favorably than those from other countries may be subject to a surtax over and above the duties specified in schedule A to this Act, such surtax in every case to be one-third of the duty specified in the General Tariff in the said schedule.

(2) Any question arising as to any foreign country or goods coming under the operation of this section shall be decided by the Minister of Customs, whose decision shall be final

(3) The Governor-in-Council may make regulations for carrying out the purposes of this section and may by order in council, from time to time, suspend the surtax from application to the goods of any country.

8. Notwithstanding anything to this Act, fish and other products of the fisheries of Newfoundland may be imported into Canada free of customs duty until otherwise determined by the Governor-in-Council, by order published in the *Canada Gazette*.

9. Fish caught by fishermen in Canadian fishing vessels, and the products thereof, carried from the fisheries in such vessels, shall be admitted into Canada free of duty under regulations by the Minister of Customs.

10. On the materials set forth in schedule B to this Act, when used for consumption in Canada, for the purpose specified in that schedule, there may be paid out of the Consolidated Revenue Fund, the several rates of draw-back of customs duties set opposite to each item respectively in that schedule, under regulations by the Governor-in-Council.

11. The importation into Canada of any goods enumerated, described, or referred to in Schedule C to this Act, is prohibited; and any such goods imported shall thereby become forfeited to the Crown and shall be destroyed or otherwise dealt with as the Minister of Customs directs; and any person importing any such prohibited goods, or causing or permitting them to be imported, shall for each offence incur a penalty not exceeding two hundred dollars.

12. Whenever, from or as a result of a judgment of the Supreme Court or Exchequer Court of Canada, or of any superior court or circuit, district or county court in Canada, it appears to the satisfaction of the Governor-in-Council that with regard to any article of commerce there exists any conspiracy, combination agreement or arrangement of any kind among manufacturers of such articles or dealers therein to unduly promote the advantage of the manufacturers or dealers at the expense of the consumer, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of customs, imposed on a like article.

(2) Whenever the Governor-in-Council deems it to be in the public interest to inquire into any conspiracy, combination agreement or arrangement alleged to exist among manufacturers or dealers in any article of commerce to unduly promote the advantage of the manufacturers or dealers in such article at the expense of the consumers, the Governor-in-Council may commission or empower any judge of the Supreme Court, or of the Exchequer Court of Canada, or of any superior court or county court in Canada, to hold an inquiry in a summary way and report to the Governor-in-Council whether such conspiracy combination, agreement or arrangement exists.

(3) The judge may compel the attendance of witnesses and examine them under oath and require the production of books and papers, and shall have such other necessary powers as are conferred upon him by the Governor-in-Counhil for the purpose of such enquiry.

(4) If the judge reports that such conspiracy, combination, agreement or arrangemen- exists in respect to such article, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable comt petition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of customs imposed on a like article.

13. Nothing in this Act shall affect *The French Treaty Act*, 1894, or chapter 3 of the Statutes of 1895, entitled *An Act respecting Commercial Treaties affecting Canada.*

Extract from the regulations governing the inspection of Preserved Fruits, Vegetables and Milk.

(a) Collector of Customs shall not clear any importation of fruit, or vegetables, or fruit or vegetable products, canned, bottled, dried, evaporated, or otherwise preserved for food, or any milk, condensed, evaporated, dried or otherwise preserved for food, unless such shipment is accompanied by an affidavit taken before a Justice of the Peace, or other person duly authorized (in the County of origin? to attest such declarations, in the following form:—

REGULATIONS FOR THE ENTRY OF GOODS UNDER THE BRITISH PREFERENTIAL TARIFF OF CANADA.

Approved by Order in Council, 14th July, 1898.

1. Separate invoices in duplicate of articles entitled to entry under the British Preferential Tariff of Canada, upon the face or back or which there shall be written, printed or stamped a certificate of growth, produce or manufacture, in such of the forms (to be

had of the Customs Department) shall be produced and delivered to the Collector of Customs at the Port of Entry in Canada, before entry of such articles under the said Preferential Tariff shall be allowed; such certificates shall be made and signed in manner following, that is to say:—

(*a*) If the exporter be an individual, either he or his manager, chief clerk, or other principal official, having a knowledge of the facts to be certified to, shall make and sign the certificate

(*b*) If the exporter be a firm or corporation the certificate shall be made and signed by a partner, manager, director, chief clerk or other principal official of such firm or corporation, having knowledge of the facts certified to.

2. In the case of entry of refined sugars under the said Preferential Tariff, in addition to the certificate of growth, produce or manufacture, to be written, printed or stamped on the invoice referred to in the first paragraph above, there shall be attached to the invoice a certificat of the refiner of the sugar as to the growth and refining of the same, in the form marked "H" set forth and prescribed in the Schedule of Forms hereto attached, before entry under the said tariff shall be allowed.

3. The certificate of growth, produce or manufacture hereinbefore prescribed will be waived in the case of postal packages not exceeding $25 in value when for entry under the British Preferential Tariff, if the contents of such packages *are not merchandise for sale*, provided, however, that such package shall have endorsed on them a certificte in the form marked "H", set forth and prescribed in the Schedule of forms attached hereto, which certificate shall be signed in the presence of a postal officer of the country whence the package was shipped direct to Canada.

SUMMARY.

From the Regulations and Customs Laws of Canada, in regard to the Dutiable Value of imported goods and the certifying of Invoices by Exporters, for the information of all concerned in the exportation of goods to Canada, and in the importation and Customs entry thereof in Canada. UNDER THE GENERAL TARIFF.

VALUATION FOR CUSTOMS DUTY.

Customs Act, Section 58. Whenever any duty *ad valorem* is imposed on any goods imported into Canada, the value for duty shall be fair market value thereof when sold for home consumpption, in the principal markets of the country whence and at the time when the same were exported directly to Canada. 46 V., c. 12, s. 68

Customs Act, Section 59. Such market value shall be the fair market value of such goods in the usual and ordinary commercial acceptation of the term, at the usual and ordinary credit, and not the cash value of such goods, except in cases in which the article imported is by universal usage considered and known to be a cash article, and so *bona fide* paid for in all transactions in relation to such article; and all invoices representing cash values, except in the special cases herein referred to, shall be subject to such addition as to the collector or appraiser of the port at which they are presented appear just and reasonable, to bring up the amount to the true and fair market value, as requird by this section. 46 V., c. 12, s. 69

VALUE FOR DUTY UNDER SPECIAL CONDITIONS.

Customs Act, Section 64. The fair market value of the goods shall be taken to include the amount of any drawback which has been allowed by the Government of any other country, also the amount of consideration or money value of any special arrangements between the exporter and the importer or between any persons interested therein because of the exportation or intended exportation of such goods, or the right to territorial limits for the sale or use thereof, and also the amount or money value of any so-called royalty, rent or charge for use of any machine or goods of any description, which the seller or proprietor does or would usually charge thereon when the same are sold or leased or rented in the country whence they have been exported to Canada. When the amount of such drawback, consideration, money value, royalty rent of charge for use has been deducted from the value of such goods, on the face of the invoice under which entry is to be made, or is not shown thereon, the Collector of Customs or proper officer shall add the amount of such deduction, drawback, consideration, money value, royalry, rent or charge for use, and cause to be paid the lawful duty thereon. 52 V., c. 14, s. 6.

Customs Act, Section 65. No deduction of any kind shall be allowed from the value of any goods imported into Canada, because of any drawback paid or to be paid thereon, or because of any special arrangement between the seller and the purchaser having reference to the exportation of such goods, or the exclusive right to territorial limits for the sale thereof, or because of any royalty payable upon patent rights, but not payable when goods are purchased for exportation, or on account of any other consideration by which a special reduction in price might or could be obtained: Provided, that nothing herein shall be understood to apply to general fluctuations of market values. 46 V., c. 12, s. 71.

2. Whenever goods are imported into Canada under such circumstances or conditions as to render it difficult to determine the value thereof for duty, either because such goods are not sold for use or consumption in the country of production,—or because a lease of

such goods or the right of using the same is sold or given, but not the right of property therein,—or because such goods having a royalty imposed thereon, the royalty is uncertain or is not, from other causes, a reliable means of estimating the value of the goods,—or because such goods are usually or exclusively sold by or to agents, or by subscription, or are sold or imported in or under any other unusual or peculiar manner or conditions,—of all which matters the Minister of Customs shall be sole judge,—the Minister of Customs may determine the value for duty of such goods; and the value so determined shall, until otherwise provided be the value upon which the duty on such goods shall be computed and levied. 51 V., c. 14, s. 15.

DUTIABLE CHARGES.

Customs Act, Section 66. No deduction from the value of goods contained in an invoice shall be allowed on account of the assumed value of any package or packages, where no charge for such package or packages has been made in such invoice; and where such charge is made the Customs officer shall see that the charge is fair and reasonable and represents no more than the original cost thereof. 46 V., c. 12, s. 72.

Customs Act, Section 67. No deduction from ohe value of goods in any invoice shall be made on account of charges for packing, or for straw, twine, cord, paper, cording, wiring or cutting, or for any expense incurred or said to have been incurred in the preparation and packing of goods for shipment, and all such charges and expenses shall, in all cases, be included as part of the value for duty. 46 V., c. 12, s. 73.

CUSTOMS REGULATIONS AS TO INVOICES.

Invoices in duplicate, properly certified, shall be delivered to Customs House with the bills of entry for all imported goods.

It is deemed advisable to draw the attention of exporters to the fact that the Customs laws of Canada provide severe penalties for the making of false invoices and certificates whereby the Customs Revenue shall or may be defrauded. In such cases, the goods are liable to forfeiture, and the exporter making such fraudulent invoices or certificates as well as the importer using them, is subject to heavy pecuniary penalties in addition to the forfeiture of the goods. Exporters are, therefore, advised and cautioned to use every care in furnishing true and correct invoices and certificates for goods shipped to Canada.

Invoices in duplicate of goods imported into Canada shall be certified in writing as correct by the person, firm or corporation selling or consigning the goods, and shall truly show the whole and actual value of the goods in the currency of the country whence the goods have been exported directly to Canada, and the quantity and description of such goods, and the marks and numbers on the packages, in such manner as to indicate truly the quantities and values of the articles comprised in each exportation package, all of which packages shall be legibly marked and numbered on the outside when of such a character as to enable such marks and numbers to be placed thereon.

If Invoices are made out at lower prices for goods exported directly to Canada than the fair market value at the same time and place for such goods when sold for home consumption in the country whence so exported, in all such cases the invoices are also to show clearly, in a special column, or by addition thereto, such fair market value, as aforesaid, for the goods described therein.

In the case of goods consigned to a person, firm or corporation other than the actual owners of the goods resident in Canada, and in the case of goods which have not been actually purchased by the consignee or importer in the ordinary mode of bargain and sale, there shall be annexed to the invoice of such goods a *declaration* to be made by the foreign owner or exporter of the goods in the form approved by the Order in Council.

Exporters will note particularly that separate invoices in duplicate must be furnished for goods entitled to entry under the Preferential Tariff. and that the certificates required must be written, printed or stamped *on the invoices*, and also that the Preferential Tariff does not apply to any of the following articles, viz.: wines, malt, liquors, spirits, spirituous liquors, liquid medicines and articles containing alcohol tobacco, cigars and cigarettes.

Exporters are required to mark distinctly in writing on all invoices of sugars exporters to Canada that the sugars described therein are either raw or refined *in every case, whether for entry under the Preferential Tariff or under the General Tariff.*

CERTIFICATES AND DECLARATIONS ON INVOICES.

The Certificate of Value, Form M., is prescribed under a Regulation of the Governor-in-Council, in order to secure a just, true and faithful appraisal of goods, and applies to Invoices of *Merchandise sold* to importers in Canada, but not to goods for entry under the Preferential Tariff until otherwise ordered, not to goods the value of which for duty has been fixed and determined under the Customs Act of Canada..

The Certificate is to be signed by a partner, official or employee of the exporter having a knowledge of the facts certified to and to be written, printed or stamped on the face or back of the Invoice.*

N. B.—A different certificate or declaration is required to be made on goods shipped in Canada on consignment.

Nova Scotia

A maritime province of the Dominion of Canada on the Atlantic Ocean, a peninsula bounded on the north by New Brunswick, the Northumberland Strait and Gulf of St. Lawrence; on the east and south by the Atlantic; and on the west and north-west by the Bay of Fundy; greatest width about 120 miles; length from southeast to north-west about 350 miles; area 21,528 square miles.

The scenery is beautiful. Lofty ranges of hills and broad valleys, covered with forests and farms, present an ever-varying change in color, which, together with the deep blue of sky and ocean, form a picture unsurpassed in any country.

The coast is indented by many fine harbors and inlets which broaden into lakes, of which the most famous and magnificent are the Bras d'Or Lakes, unique in their grandeur. The forests, streams and lakes of Nova Scotia are well supplied with game and fish, and might well be termed a "sportman's paradise."

The province is rich in minerals of all kinds, its coal mines being among the best in the world.

The climate is temperate and salubrious, the heat in summer seldom rising above 90° in the shade, and only for a few hours, the nights are always cool and refreshing; in winter the extreme of cold is but a few degrees below zero, in rare cases exceeding 10° below.

Owing to her favorable geographical position, Nova Scotia possesses (Newfoundland excepted) the finest fisheries in the world.

Nova Scotia has nearly 1400 miles of railway, which, with her 1000 miles of coast line, make communication very easy.

Farming, fishing, mining and lumbering are the chief industries. Her manufactures and commerce are also of great importance.

Nova Scotia is noted for its educational institutions, many of whose graduates fill the highest positions in the educational arena, both in Canada and the United States. This was the first province to establish a free school system.

The inhabitants are mostly descendants of colonists who came from Great Britain, France and Germany in the seventeenth and eighteenth centuries. The population in 1911 was 492,338 and will probably show considerably over half a million by the 1921 census.

The Province is directly connected with all ports of the world by water. Halifax, the capital city and chief port, is the terminus of many transatlantic steamship and transcontinental railway lines.

Do you know that much of the vinegar placed on the market is "dosed" with "foreign acids" and "loaded" with "coloring matters"? This kind of vinegar makes ordinary pickles—or worse. But if you will just take the care to procure from your grocer **"Graves' Apple Cider Vinegar,"** the result will be superior pickles. Our vinegar is guaranteed strictly pure. It is the juice extracted from choice apples. Contains not a drop of foreign acids or a particle of coloring matter. Every spoonful is a spoonful of quality. For pickling—for table use—for all purposes—it is the best vinegar.

Halifax, the capital of Nova Scotia, Halifax co., which has a population of about 60,000, was founded by Governor Cornwallis on 21st June, 1749. It was named Halifax in honor of the President of the Board of Trade and Plantations. It is the principal military and naval station for Canada; having always been a garrison city, it is very proud of its military record.

Halifax is one of the most strongly fortified cities in America; the several forts on the islands and along the shores of the harbor, armed with the most modern guns make the city impregnable by water. Its natural situatuion is exceedingly good. The city comprises the whole of a peninsula formed by the harbor on the east, and by the river-like inlet from the harbor on the south-west called the Northwest Arm. Proceeding northward, the harbor narrows, and then suddenly expands into Bedford Basin, which bounds the peninsula on the north. The extreme length of the peninsula, from Point Pleasant to the Basin, is four and a half miles, and the average width about 2 miles. The width of the isthmus, from the head of the Northwest Arm to the nearest point on Bedford Basin, is about a mile and a half. The whole area of the city is about eight square miles. Nature has done much to make the penin-

sula of Halifax the site for a large and beautiful city; the whole area described is available for building purposes, spacious streets, parks, pleasure grounds, etc., at a much less cost than is generally incurred in the laying-out and building of a town. Halifax harbor is universally pronounced one of the best in the world. For a distance of ten miles there is what navigators call 'good water' and the shores along the water front are available for wharves, piers and quays, with sufficient depth of water to admit vessels close inshore. Here the largest vessels afloat can enter at any time. One of the largest graving docks in America is in this harbor. Two large and well-equipped ferry boats ply alternately every fifteen minutes between Halifax and Dartmouth, on the eastern side of the harbor.

The scenery surrounding Halifax is unsurpassed in the Maritime Provinces; from the citadel, on a fine summer day the view looking south-eastward is grand. Below lies the city, studded with beautiful shade trees, the luxuriant pine forest of Point Pleasant Park; beyond, the harbor, with its shipping, and green, gem-like islands, the frowning battlements of York Redoubt, and just beyond are seen the blue waters of the Atlantic.

The Public Gardens of Halifax are acknowledged the finest in America; comprising about seventeen acres laid out with exquisite skill, and containing some fine specimens of statuary, two magnificent monuments, and several inviting ponds. Its chief charm, however, is found in the delightful promenades and beautiful flower beds—the honest pride of Nova Scotians.

Point Pleasant Park, comprising about two hundred acres situated only a mile and a half from the center of the city, is a most beautiful public park, being a natural forest with miles of well-kept roads and foot-paths, affording magnificent sea views, and giving the visitor invigorating sea breezes at every turn.

The Northwest Arm, one of nature's most charming spots, is an ideal pleasure resort. The Arm is about two and a half miles long, a grand sheet of water, sheltered on both sides by sloping hills of spruce and pine, dotted with handsome residences. Regattas are held here, and in summer band concerts are frequently given when thousands of boats and canoes from the numerous club houses on its shores, make a veritable fairy land.

There are over forty churches in Halifax city, the oldest of which is the "Little Dutch Church," built between 1740 and 1750. Saint Paul's, built in 1752, has the distinction of being the first Anglican church built in Canada. Its frame was brought from the New England States. The church is noted for its many mural tablets. All Saints Cathedral, is a beautiful structure built of seam-faced trap rock or iron-stone with concrete trimmings of the same material in perpendicular gothic style. Trinity Church (the old Garrison Chapel) was erected early in the nineteenth century. Among the several Presbyterian churches, St. Matthew's is the oldest. St. Mary's Roman Catholic Cathedral has a granite front of great architectural beauty. There are also several handsome Methodist and Baptist churches; and one each, Lutheran, Universalist and Jewish.

Halifax is noted as a "banking city", and millions of the wealth of its citizens are invested in bank stocks. The banks are the Royal Bank of Canada, Bank of Nova Scotia, Bank of Montreal, Canadian Bank of Commerce, Union Bank of Canada, Merchants Bank of Canada. Most of these have branches in different parts of the city. Among the public buildings are the Provincial Building, Government House, County Court House, Customs House, Post Office, City Hall, Masonic Temple, Armouries, Schools for the Blind, Deaf and Dumb, Young Men's Christian Association, Victoria General Hospital.

The city is well furnished with educational institutions; among them the Dalhousie University, Halifax Ladies' College and Conservatory of Music, Presbyterian Theological College, Holy Heart Seminary, St. Mary's College and Convent of the Sacred Heart. The public schools about thirty, are of a high order.

Besides her extensive commercial relations with the rest of Canada, Halifax has large dealings in exports and imports with Great Britain, the United States and West Indies.

Halifax has just been launched upon her destiny as an entrepot for the commerce of the world, due to the completion of the Ocean Terminals at the entrance to the harbor. The substantial character of this great work with the passenger and freight facilities, both railway and steamship, reflects great credit upon Canada, and will be a large factor in her progress. H. M. Dockyard occupies a large area, and has all modern improvements.

The telegraph companies are the Western Union Telegraph Co., C. P. R. Telegraph Co., the Direct United States Cable Co., Ltd., and Halifax & Bermudas Cable Co.

The railways running to and from Halifax are the Canadian National Railways of Canada, Canadian Pacific Railway, Dominion Atlantic Railway, and the Halifax and South Western Railway.

Another notable feature is the establishing of shipbuilding on a large scale; this industry having been vigorously entered upon by the Halifax Shipyards Limited.

office, C. P. R. telegraph and Canadian express. The town was incorporated in 1901, has good streets and sidewalks. The proposed Cape Breton railway will have its eastern terminus here, for which it has procured the property. The Dominion Coal Co. has a fine pier one of the best in Canada; shipping large quantities of coal annually. The harbor is considered one of the best for the terminus of the fast steamship line, being 60 miles nearer the old country than any port in Canada, a vessel leaving the pier is on the Atlantic Ocean inside of ten minutes. A large number of tourists visit here during the summer months. Two miles from the town, at the south end of the harbor, is the old historic town of Louisburg, where the English and French fought for the supremacy of America. Large quantities of fish are caught in vicinity; there are several fish curing establishments.

The place is rapidly acquiring all modern conveniences and increasing in population on account of the Dominion Iron and Steel works, a colossal concern, the largest of its kind in Canada, and many other large industries; it is not necessary to particularize about the above works in this sketch, suffice it to say they laid the foundation of the industrial life of Sydney. Many large manufacturing industries are preparing to locate here, among which is a big steel shipbuilding plant. With the rapid strides that are now being made Sydney is destined to become the largest city east of Montreal in the very near future. Principal exports are iron, steel and all other products of Dominion Iron and Steel Works, coal, fish, hides and lumber. Among the manufactories are foundries, carriage factories, marble and granite works, sash and door factories, aerated water manufactory, tannery, bricks and fertilizer. There are a number of

New Brunswick

A maritime province of the Dominion of Canada, bounded on the north-east by the province of Quebec, separated by the River Restigouche; north by Baie des Chaleurs; east by the Gulf of St. Lawrence and Northumberland Strait, the latter separating it from Prince Edward Island; south by part of Nova Scotia and the Bay of Fundy; on the west side by the State of Maine, separated by the St. Croix and St. John rivers; extending from latitude 45° 5′ to 48° 45′ North., longitude 63° 50′ to 68° W.; greatest length from north to south, 230 miles, breadth 190 miles, area 27,911 square miles, equal to 17,863,266 acres. Its coast line is about 500 miles in length, interrupted only at the point of junction with Nova Scotia, where an isthmus of not more than 9 miles in breadth connects the two provinces and separates the waters of Northumberland Strait from those of the Bay of Fundy.

The face of the province is traversed by many fine rivers, the St. John and its tributaries draining about 9,000,000 acres in New Brunswick 2,000,000 acres in Quebec, and 6,000,000 acres in the State of Maine. It is 450 miles in length and navigable for vessels of 100 tons as far as Fredericton, 85 miles from the sea. The valley is remarkable for its fertility and picturesque beauty.

The coast is indented by fine bays and harbors. The most important bay is Baie des Chaleurs, on the north-east, 90 miles in length and 12 to 25 miles in breadth. The principal harbor is St. John, at the mouth of the river St. John on the Bay of Fundy.

The climate is temperate and healthful, being similar to Nova Scotia in the southern part, the extremes of heat in summer and cold in winter being greater in the more northern parts. The autumn is a season of exceeding beauty, the air being dry and clear, and the woods glowing with innumerable tints of the richest and most brilliant hues.

The soil is rich and very productive, large quantities of potatoes, hay and turnips being raised on the farms. The greater portion of the surface is covered by dense forests of pine, spruce, etc., which provide immense quantities of timber for export and shipbuilding. The rivers, lakes and sea coast abound with fish and lobsters.

The province is a noted resort for salmon fishing and the hunting of big game.

The principal industries are lumbering, farming and fishing. Shipbuilding and manufacturing are also of importance. The number of saw mills in the province is very large.

The capital of the province is Fredericton situated on the St. John River, chief city is St. John, a great railway terminus and sea port.

The province is covered by about 1,700 miles of railway, the principal systems being the C. N. R. and C. P. R.

The inhabitants are mostly descendants of emigrants from Great Britain, and U. E. Loyalists. There are a number of French Acadians and a few Indians in different parts of the province. The first settlement was made by the French in 1639. The first British settlers emigrated from Scotland to Miramichi in 1764. The populationa in 1911 was 351,889.

Fredericton, the capital of New Brunswick and shiretown of York co., is an incorporated city, on the west side of the St. John River, 85 miles from its mouth. It has a post, money order office, postal savings bank and is a port of entry. It is 64 miles from St. John by rail; 337 miles from Halifax; 65 miles from Woodstock and 115 miles from Chatham. 22 miles from Fredericton Junction, which is on the main C. P. R. line connecting with Boston and Montreal.

Fredericton is noted for its beautiful tree lined streets and fine residences, which are surrounded by well kept lawns. The range of hills just behind the city and the noble St. John river in front with the spires of the churches rising above the great elms that shade its streets have won for Fredericton the name of "Celestial City." There is no more beautiful city in the Dominion. It is surrounded by a rich agricultural country. A modern steel passenger bridge spans the river about the centre of the city, and a steel C. N. R. bridge at the East End This is the starting point for fishing and hunting parties; good guides are to be had here at ail times, from the Crown Lands department. This spot was selected as the site for the capital of the province by Governor Carleton in 1785. The Assembly met here for the first time in 1788. The original house built and first occupied as government house by Sir Howard Douglas in 1824 is stilll standing. During the war of 1914-18 it was converted into a military hospital.

Churches—There are several beautiful church buildings. Christ Church Cathedral (Anglican) situated at the east end of the city is a beautiful example of Gothic architecture. It was partly destroyed by lightning July 2nd, 1911, but later rebuilt. The Brunswick St. Baptist, Presbyterian, Methodist and Roman Catholic churches are beautiful and commodious structures. Other churches are:—St. Ann's

FREDERICTON, - New Brunswick

(Anglican), George St. Baptist, Reformed Baptist and Salvation Army.

Public Buildings—Fredericton has been a military centre for many years, having officers' quarters, with fine lawns and tennis grounds as well as trim looking barracks. It has fine public buildings, the principal ones being Parliament and Departmental Buildings, situated on a beautiful spot over looking the river and surrounded by large shade trees and well kept lawns; Hall of Legislation, Supreme Court rooms, Library of the Legislature, Board of Works; Crown Lands office, Provincial Secretary and other public offices are all located in these buildings; two Dominion buildings, one containing post office, Dominion Savings Bank, the other the custom house, Agricultural Society building; Military Hospital; Victoria Hospital; County Court house, Provincial Normal School, the university of New Brunswick, City hall; 4 public school buildings, also a fine business college and the Municipal Home. Bank of Montreal, Bank of Nova Scotia, Canadian Bank of Commerce and Royal Bank of Canada.

Fire Department and Water Supply, etc.—It has an excellent fire department and a water system above reproach The filtration plant in connection with the water is the pride of its citizens. The water is drawn fron the river through a 15 inch riveted steel suction, this taking the water from a crib pier 150 yards from the shore, conveys it by gravity to a pump-well located adjacent to the water works

station. From the pump-well the water is raised by two six inch centrifugal pumps direct, connected to reciprocating engines with capacity of 1400 gallons per minute. These pumps raise the water to a coagulating basin, (54 ft. by 22 ft. 3 in.) capacity 90,000 gallons, divided completely into two chambers to allow for the alteration of the period of coagulation to suit the varying conditions of the river. From the coagulating basin the water flows by gravity through the filter beds (10 ft. by 15 ft.) at the rate of 125 million gallons per acre per day to the clear water reservoir situated below the filter buildings. The clear water basin has a storage of 470,000 gallons. The streets are well paved with asphalt pavement and lighted by electricity.

Parks and Points of Interest—Wilmot Park, at the upper end of the city, is a beautiful spot covering 30 acres, and is very prettily laid out in lawns, flower beds, shady walks and drives; and Queen Square Park at the lower end of the city. There is also a good ½ mile track adjoining Wilmot Park with grand stand and sheds.

Fredericton has large and extensive exhibition buildings, at which are held the provincial exhibitions every other year. There is a very fine collection of stuffed animals of the province to be seen in the Crown Lands office. Also the well known collection of birds and birds eggs, known as the Boardman Collection, which cost the former owner $80,000.

Fredericton is the educational centre of the province. Here is situated the Provincial Normal School; also the New Brunswick University, one of the best and oldest in Canada. It was founded in 1800 and established by Royal Charter in 1828, for both sexes. The Arts Building is a splendid stone structure. It is situated on "College Hill" overlooking the city. The Engineering building and Gymnasium are built of brick. The University has a well equipped physical and chemical laboratory, as well as a museum of natural history.

Transportation—The C. P. R., C. N. R, and Valley railroad all enter the city. Commodious river steamers make daily trips in summer to St. John, stopping at all intermediate points. This is one of the most beautiful excursions that can be taken, as the natural scenery on the St. John river is equalled by few and excelled by none. The river is well named the Rhine of Amercia. Fredericton is becoming very popular as a summer resort for tourists from all over Canada and the United States, not only on account of its fine drives boating and fishing, but also for its good hotel accommodation. The principal hotels are Queens, Barker House and Windsor Hall.

The newspapers are—The Gleaner daily and weekly; The Daily and Weekly Mail; and the Royal Gazette, issued by the Provincial Government, and printed by the King's printer. It has some of the finest stores in the province, both wholesale and retail. The Banks are: Government Savings Bank, Bank of Montreal Bank of Nova Scotia, Royal Bank of Canada and Bank of Commerce. It contains 12 hotels and a number of boarding houses, 2 saw and shingle mills, 1 planing mill, 1 sash and door factory, 1 grist mill, 2 carriage factories, 1 foundry, and machine shop, 1 shoe factory, 1 leather factory, 2 larrigan factories, 1 canoe factory, Dominion and Canadian express, telephone, C. St. John City, is the commercial capital of New Brunswick. It is the chief port of entry and one of the principal railway centres of the province; also the winter port of Canada. It was the first city in Eastern Canada, and the second in the Dominion, to adopt the system of commission form of municipal government. Its population is estimated at 55,000. It was discovered by Champlain on June 20th, 1604; founded by Loyalists from the New England States on May 18th, 1783, and was incorporated a city in 1785. Hon. Gabriel G. Ludlow was the city's

first mayor. St. John was visited by a disastrous fire on June 20th, 1877. More than one-half of the city, including its principal business houses, public buildings, and banks, was destroyed. The loss was estimated at over $20,000,000. The burned area was soon rebuilt and sightly buildings of brick and stone replaced those destroyed. St. John river and harbor were named by the famous explorer in commemoration of the Day of the Saint—St. Jean Baptiste—on which they were discovered, and afterwards the city took its name from the river. St. John is divided into four districts, viz.: The North End (formerly Portland), South End, or the City; St. John West (formerly Carleton); and East St. John. St. John proper is situated on a rocky peninsula at the mouth of the river on the eastern side of the harbor and is connected with the West Side (Carleton) by a steam ferry. There is and excellent harbor, accessible and safe at all times. There are piers and wharves on both sides at which the largest vessels load. Much dredging and wharf building have been done here in recent years and extensive improvements are in contemplation. St. John has facilities for loading, equal to any port in Canada. The two C. P. R. elevators on the West Side of the harbor, and the elevator of the C. N. R. at Reed's Point have each a capacity for holding thousands of bushels of grain.

While St. John is the most important city for commercial enterprises as well as manufacturing industries, it is also the largest centre for the export of lumber in the Maritime Provinces. An International Exhibition held every two years offers commercial men splendid facilities, while for tourists, St. John has many attractions. Its accessibility by steamer or rail makes it but a short journey from the populous centres of the United States and the rest of Canada. The climate is delightful, temperatures averaging about 65° F., no malaria, no mosquitoes, the nights are cool in summer, even after the warmest days. The scenery in the vicinity is picturesque and the drives are charming. The appointments of the hotels are second to none in Canada, and there is excellent fishing and shooting within a few miles of the city. Of late years the Horticultural Society has done much to make St. John one of the most attractive cities in Canada. The squares, or parks, have received special attention, and the grounds are set with artistically designed flowerbeds and maple, ash and other beautiful trees. Rockwood Park, on the highlands northward, with its natural lakes, grottoes and enchanting walks and drives, has few, if any, rivals in the Dominion.

The principal natural attraction of St. John is the "Reversing Falls," near the mouth of the river at the site of the historical Suspension Bridge, where the river is now spanned by a magnificent spandral arch structure, as well as by a Cantilever railroad bridge. At this point the noble St. John river, which is over four hundred miles in length, and in places fully two miles wide, and navigable by river steamers for 85 miles, empties its flood of waters through a gorge less than 500 feet wide.

The view from the Spandral Arch Bridge at low water is one of the grandest in the Maritime Provinces. Three hundred yards up the river are the falls proper. Both above and below the bridge, the river rushes through its narrow rock bound channel in foam-capped whirlpools in its mad rush to the sea. For untold ages there has been a ceaseless struggle of the waters. Here twice every twenty-four hours the river's unbroken sway of over 400 miles is disputed by the incoming tide from the ocean. After a battle of the giants, the seething, swirling eddies give place to a calm unruffled surface as the strength of the river is equalized by the power of the incoming tide. Then, gradually the tide becomes victor, the river's current is reversed and the falls flow up stream. With the ebb of the tide the river again becomes victor till,

"That which drew from out the boundless deep,
Turns again home."

Another place of interest is the Martello Tower on Carleton Highlands. It was built in 1813 and had six guns. From the top of this obselete fort there is a splendid view of the city, bay and surrounding country.

St. John is noted for its charitable institutions, principal among which are: The Home for Incurables, endowed with $100,000 by the late W. W. Turnbull, Esq., it is open to all, irrespective of color or creed; Wiggins' Male Orphan Institution, Protestant Orphan Asylum, The Childrens' Aid and the Mater Misericordiae, (R.C.). There is also a home for Aged Ladies. There are forty-seven churches representing twelve denominations. Among the principal churches are: Trinity, St. John (Stone), St. Pauls (Valley), and St. Lukes Episcopal; Germain Street, Central and Main Street Baptist; St. Andrews, St. Davids, Knox and First Church (West Side) Presbyterian, Centenary, Queen Square, Exmouth and Portland Methodist; the Cathedral and St. Peters Roman Catholic. The Salvation Army have Barracks and Rescue Homes, throughout the city where social welfare work will be undertaken. There are also two Jewish Synagogues.

The water and sewerage system of St. John is excellent. It is lighted by gas and electricity. An electric street railway traverses the city extending to the extreme north end and spandral arch at the Falls, and from thence down through St. John West connecting with the ferry, out to Seaside Park on the Bay Shore, and another branch through Fairville. The fire department of St. John is one of the best in Canada. Among the banks and private bankers of this commercial capital are: The Bank of Montreal, Canadian Bank of Commerce, Merchants Bank of Canada, Royal Bank of Canada, Bank of Nova Scotia, Union Bank of Canada, Provincial Bank of Canada, Dominion Government Savings Bank, J. C. Mackintosh & Co., and J. M. Robinson & Sons. Besides the

head offices there are several branches of these banks. The city has a good Public Library and the public schools are of a high standard. From the High School, students matriculate into McGill and other leading universities. Two business colleges furnish splendid business courses.

St. John throbs with industrial life. The new Atlantic Sugar Refinery Co., Ltd., the two cotton mills, the McAvity iron and brass foundries, together with several large lumber mills, are among the largest employers of labor. Besides these, there are many important industries: rolling mills, shoe factory, tannery, nail factories, axe and saw factories, wire fence work, corn mills, engine and boiler works, machine shops, breweries, soap factories, pork packing establishments, vinegar manufactories, several fish packing houses, door and sash factories, brush and broom factories, pulp mill, stove and range factories, paper box and paper manufactory, carriage factory, trunk factory, hat and cap factory, candy factory, pottery factory, biscuit factory, cigar factory, brick yard, glass works, clothing factory, wood, box, box shooks, crate factory, and sardine plant, beside many smaller industries. The winter port employs many hundreds of men during the winter port season.

Public buildings are: The Exhibition Building, Protestant Orphan Asylum, Custom House, Post Office, City Building, Masonic Temple, Orange Hall, K. of P. Building, Opera House, Imperial Theartre, Railway Station, Public Library, Country Market, Provincial Hospital for Nervous Diseases, General Public Hospital, Seaman's Institute, Yacht Club, Y. M. C. A. Building Y. W. C. A., Y. M. C. I., Roman Catholic Cathedral, Natural History Museum, Power Boat Club House, Bible House, etc.

Developments—A mammoth dry dock and ship-repair plant is in process of construction on the east side of Courtenay Bay, by the St. John Dry Dock and Shipbuilding Company. Three millions of dollars have been expended by the government in developments at Courtenay Bay. It will be made into a modern harbor with adequate terminal facilities. At least $5,000,000 will be expended in the project.

The port of St. John has become the second export harbor in the Dominion, being led only by Montreal. Its exports in 1918 were $200,783,647, being $14,524,546 in excess of 1917, while its imports increased in the same period from $14,956,948 to $16,878,150.

The C. N. R. has transcontinental connections and is also connected with Montreal via Moncton, North Shore and Quebec. It is connected with the Valley Road via McGiviney and Fredericton. It has a direct line to Halifax via Moncton and Truro. The Valley Road will enter St. John, through Westfield, in the fall of 1919.

Steamer Connection—with St. John is with the following lines: Eastern Steamship Company—St. John to Boston via Eastport and Portland; A. C. Curry, agent; Head Line Steamship Company, Wm. ST. JOHN, - New Brunswick

St. John County, is bounded on the north by Kings co., west by Charlotte co., south by Bay of Fundy, and east by Albert co. There is an abundance of limestone. Has several mills and factories of different kinds, but the largest proportion of these are located within the city of St. John, which is the capital. It is intersected by the River St. John, which at its mouth forms one of the finest harbors on the coast. It contains 386,400 acres. Pop. 1911, 53,572.

St. John, East, a post and money order office, St. John co., a suburb of St. John city on the east side of Courtenay Bay. During summer months a number of St. John citizens occupy cottages.

St. Joseph, a post and money order office; a farming village Wesmorland co. Nearest telegraph, Memramcook, 4 miles; railway station, College Bridge, 1 mile. Contains 6 stores, 1 planing mill, 1 hotel, Canadian express, telephone, 1 butter and creamery factory, Banque Provinciale du Canada, and Roman Catholic church. The seat of St. Joseph's College, also a convent, under the control of the Roman Catholic church. Pop. 550.

St. Joseph de Kent, a post office, Kent co., 5 miles from Buctouche, on Kent Northern railway, the nearest commercial centre. Pop. 50.

St. Lazare, a post office, Kent co., 11 miles from Buctouche station, on Buctouche and Moncton railway.

St. Leolin, a post office, Gloucester co. Nearest money order office and telegraph, Grand Anse, 3 miles; express and banks, Bathurst, 29 miles. Pop. 150.

St. Leonard Station, a post and money order village, Madawaska co., situated on C. P. R., 13 miles from Grand Falls. It is the terminus of the International railway, connections with the C. N. R. at Campbellton, 112 miles. Contains 7 stores, Royal Bank of Canada, 2 hotels, telephone, telegraph, express. Catholic and Presbyterian churches. Pop. 500.

St. Louis de Kent, a post and money order office; a farming village, Kent co.; a station on Kent Northern railway. Nearest commercial centre, Richibucto, 9 miles. Contains 8 stores, 2 hotels, 1 butter factory, 1 saw mill, convent and Roman Catholic church. Pop. 600.

St. Luc, a post office, Kent co., 12 miles from Acadie Siding, station on C. N. R., north of Moncton.

St. Margaret, a settlement, Kent co. Has telephone connection from Chatham.

St. Martins, (formerly called Quaco), a post and money order office, postal savings bank, sub-port of entry, farming and lumbering town and summer resort in St. John co. on the Bay of Fundy; the terminus of the Hamptona nd St. Martins railway 30 miles from Hampton. Daily mail stage connection with St. John. 30 miles. St. Martins has a good harbor with safe entrance; a lighthouse at Quaco Head on the western side of harbor with revolving light and a red beacon light on the eastern breakwater, also a steam fog alarm and signal station on Quaco Head; rise and fall of tide is 30 to 36 feet, with 17 feet of water during spring tides at principal wharves. A railraod has been projected from St. John to a point on the Hampton and St. Martins railway via Loch Lomond. A good location for a pulp mill as there is good water power and an abundant supply of lumber all kinds; the various lumber concerns now manufacture about 10,000,000 feet annually. To tourists and pleasure-seekers St. Martins especially commends itself; situated on the Bay of Fundy, with a beautiful sand beach extending in a semi-circle for a distance of 3 miles, it gives unequalled

advantages to those wishing to enjoy the sea-breeze or a sea-bath, and the lofty headlands which extend from either end of the beach, enclose with towering cliffs the beautiful bay of Quaco Harbor, forming a barrier against the fog when it comes up the bay from the "misty Atlantic," and producing subjects for the artist's sketchbook. The tourist will find the drive along the bay shore from St. John, a delightful one, passing as he does romantic Loch Lomond, with "bonnie banks" and miles of crystal waters. Trout fishing in the many lakes and streams around St. Martins is exceptionally good. This beautiful village is noted for its healthful climate and the longevity of its inhabitants. In 1902, a man—James Ross—died in this place at the remarkable age of 112 years, and to-day there are a number of persons living within a radius of a few miles, enjoying good health, who have passed the four-score mile-stone. Reside in St. Martins and live a century! There are several fine stores, 3 hotels, 6 churches, 2 Baptist, 1 Methodist, Catholic and 1 Presbyterian, 5 saw mills, 1 planing mill, Canadian express, and telephone. Nearest banks, St. John or Hampton. Manganese deposits in neighborhood. Pop. about 1,200.

St. Mary's, York co., the name of the station on the C. P. R., at St. Mary's Ferry. See Devon.

St. Marys, a settlement, Kent co. Has telephone connection from Buctouche.

St. Marys Ferry, York co. See Devon.

Prince Edward Island

A province of the Dominion of Canada; an island situated to the north of Nova Scotia and east of New Brunswick, in the Gulf of St Lawrence, separated from the mainland by Northumberland Strait. Greatest length 140 miles, and from 2 to 34 miles in width. Area 2,184 square miles, or 1,397,991 acres. The coast line is very irregular, the province being divided into three peninsulas by bays penetrating from opposite directions.

The surface of Prince Edward Island is gently undulating, without mountains or lowlands. At one time the entire island was covered with dense forests of beech, birch, maple, poplar, spruce, fir, hemlock, larch and cedar, but now these forests having given place to thousands of small farms. The soil is generally of a light and sandy texture and is everywhere exceedingly fertile, with scarcely a rock or stone of any size to be found. The climate is remarkably salubrious, the air being dry and mild with no summer fogs. The winter is not severe nor is the summer oppressively hot, being very favorable for the growth and maturing of farm crops.

The scienic features fill the traveller with wonder. "Earth has not anything to show more fair." A low-lying land, in strange contrast with the rocky boldness of the adjacent continent, arises out of the sea, its red shores crested with verdure of peculiar greeness, presenting a scene almost tropical in its richness. True, there is no grandeur, save in the roaring surf by which the northern coast is lashed, or where red cliffs are moulded into fantastic shape by the lovely restless sea; but its pastoral beauty is pleasing. It is a land which soon bewitches the tourist. He is charmed with its clear skies, its sunny days and cool nights; and he is invigorated with each breath of its odorous air. It is called the garden province of Canada, and its mellowed beauty, marvellous fertility, perfect climate, and hospitable people, all combine to make it an ideal resort.

The Prince Edward Island division, 275 miles of the Canadian National Railways, owned and operated by the Canadian government, connects all parts of the province. Connections are made by water from the following points on the mainland.

Via Cape Tormentine, N. B. The Canadian Government Car Ferry Steamer, "Prince Edward Island" will leave for Port Borden, P. E. I. daily (except Sunday) after arrival of the morning trains from Halifax, and the trains leaving St. John at 12.40 p m, and Moncton at 15.45 p. m. Distance between Cape Tormentine and Port Borden, 8 miles. Time crossing Strait 50 minutes.

Steamers leave Mulgrave, N. S., Thursdays, after arrival of No. 20 Express, for Montague and Georgetown.

Halifax, N. S., every Tuesday at 7,00 a. m. for Sheet Harbor, Isaac's Harbor, Canso, Arichat, Port Hawkesbury, Charlottetown, Summerside, and West Arichat. S. S. Strathlorne leaves Tuesday evenings for Port Hastings, Port Hood, Mabou and P. E. Island ports. Connection is also made by steamer with Boston and Montreal.

These arrangements, it must be remembered, excepting those of the Car Ferry from Cape Tormentine to Port Borden, are in operation only during the season of open navigation in the Gulf—that means for seven or eight months of the year.

As a field for sportsmen Prince Edward Island affords neither large game nor extensive salmon fly-fishing. Good trout fishing can be had in June, July and August, and fair shooting may be obtained before the tourist leaves for home, but the best shooting is in the spring and fall.

The Island originally covered a larger area than at present, its shores on all sides, but more particularly on the north, having succumbed to

the waves. The sand has now constructed a barrier on the north side which will stop any further encroachment of the sea in that direction. These sand-dunes bar the sea from the land for a distance of fifty miles. They extend in long lines across the bays and parallel to the coast, and sometimes reach a height of fifty or sixty feet. Between these hills and the shore are formed lagoons or ponds—the haunts of fish and sea-fowl. Beyond the bars and the sand-dunes where the foam-capped surf rolls and sprays, are miles of beeches, white and firm, affording the finest sea bathing in America. The average temperature of the water is about sixty-five degrees.

Prince Edward Island is divided into three counties: Kings, Queens and Prince. The population in 1911 was 93,728 or over 42 persons to each square mile.. The people are of Scotch, English, Irish and French descent, those of Scotch descent being the most numerous.

of the York, Elliot and Hillsborough rivers, and possesses one of the finest harbors in the world. The water at low tide is 20 feet deep at wharves. During open navigation steamer connection is had with Montreal, Halifax, Boston, St. John's, Nfld; and several intermediate ports. One of the healthiest cirties in Canada, having an excellent water and sewerage system, telephone, telegraph, electirc lights, etc. The streets are wide and many of them shaded, the public squares arre well kept. Several of the principal buildings are situated in Queen square. Commencing at the west end of the square we have the market building, then the Dominion building, containing post office, customs and Government savings bank; next is the Provincial Building, rich with the political memories of 70 years, containing legislative assembly chambers, legislative library, with which is incorporated the Dodd library open to the public, and local government offices. This edifice is of Nova Scotia freestone. Adjoining the Provincial building on the east is the Law Courts structure; on the extreme east end of the square is situated St. Paul's

Church of England. The city is well supplied with churches, including, 2 Church of England, 2 Methodist, 1 Salvation Army, 2 Presbyterian, 2 Baptist, 1 Christian, 1 Catholic, 1 Church of Scotland. Other prominent structures are the Prince of Wales College, City Hall, Masonic Temple, the Prince Edward Island hospital, and Charlottetown hospital. Several public schools and convents. Insane asylum situated at Falconwood. St. Dunstan's College (Roman Catholic) 1 kindergarten, 2 business colleges and schools of music, a well appointed Young Men's Christian Association building, a modern opera house, and several halls, fine exhibition building and driving park, a beautiful public park called Victoria, containing 75 acres. The stores are of a high standard and comprise many large brick and stone structures, equal to any in the Maritime Provinces, 4 tobacco factories, 1 foundry and macuine shop, 2 pork packing establishments, condensed milk factory, 4 garages, electirc light plant, several sash and door factories, and minor industries. There are 5 banks, viz.: Bank of Montreal, Banque Provinciale du Canada, Royal Bank of Canada, Canadian Bank of Commerce and Bank of Nova Scotia. There are several newspapers, amongst which are the Guardian, Patriot and Examiner, which are dailies. There are about 70 Fox ranches in immediate vicinity. The city is also the headquarters of the P. E. I. railway branch of C. N. R. There are many beautiful drives and places of interest in and around the city. In the tourist season, it is visited by many tourists from all parts of the world. Note the following advertisers: Auld Bros., Ltd., grocers; Bruce Stewart & Co. Newfoundland

(or Terre-Neuve), England's most ancient colony, is a large island in the Atlantic Ocean, at the mouth of the Gulf of St. Lawrence. It is separated from Canada on the west and south-west by the Gulf of St. Lawrence, and on the north-west by the Strait of Belle Isle, distant but nine miles at its narrowest point from the shores of the Labrador. Its south-west point approaches Cape Breton, about a seven hours run for a steamer. It is bounded on the east and south by the Atlantic. It lies in the highway of traffic between the old and the new world, and is nearer to Europe than any other part of America. St. John's, the capital and most eastern projection, is but 1,640 miles from Valentia in Ireland, and from its position could be made the Gibraltar of the west, and an outlying fortress for Canada. Newfoundland forms an irregularly shaped triangle, deeply indented with numerous bays and harbors, and surrounded with innumerable islands, and has a coast line of about 2,000 miles. Its greatest width, between Cape Anguille and Cape Spear, is 317 miles; its greatest length, between Cape Ray and Cape Bauld, is about 316 miles; total area 42,200 square miles. The principal bays are: Conception, Trinity, Bonavista, Notre Dame, White, and Hare, on the east and north-east coast; Bonne Bay, Bay of Islands, Port au Port, Bay St. George, on the west coast; Fortune, Placentia, St. Mary's and Trepassey Bays, on the south coast. There are also numerous smaller bays and harbors, many of which are extensive, commodious and well sheltered, with numerous rivers and rivulets running into them.

The opening up of the country by the inauguration of the Reid-Newfoundland Co's railway system has been the chief factor in revealing the natural wealth of the interior hitherto unknown. The railway extends from St. John's to Port-aux-Basques, and continues from Placentia junction, round the principal bays on the east to Exploits on the north, thence across the country, taking in Grand Lake and Deer Lake to Bay of Islands on the west coast, then south taking in Bay St. George to Port-aux-Basques, the terminus, some 550 miles.

Branch Railway Lines—Branch lines extend to Harbor Grace, 83 miles; Placentia, 84 miles; and to Brigus, Lewisport, Board Cove, etc. The Colonial Legislature contracted with the Reid-Nfld Company for the construction of five branch lines of railway, connecting with the Trunk Line across the Island. The first of these, extending from Clarenville through the Bonavista peninsula, was opened in 1911. The construction of branches to Heart's Content, on the south side of Trinity Bay, and from St. John's to Trepassey, near Cape Race, is completed and in operation. Branches are also being built from the main line to the head of Fortune Bay and from Bear Lake to Bonne Bay. These will make up an increase mileage of about 300 miles, and will bring virtually every section of the island into direct communication with the trans-insular line through the agency of the railway system and the connecting steamers, besides opening up new areas to sportsmen and tourists.

How to Reach the Island— Newfoundland and Labrador are no longer unknown lands. The traveller can reach Newfoundland from any point in Canada or the United States with ease and comfort. All railways, steamship and tourist agents issue tickets via the Reid-Newfoundland System. The Canadian National Railway express trains connect at Sydney, C. B., with the Reid-Newfoundland Co.'s fine steamers, connecting at Port-aux-Basques with the railway which conveys the angler and deer-stalker direct to the salmon rivers and caribou grounds.

As a health resort this sea-girt isle affords a welcome escape from the burning heat of summer; its scenery is novel and attractive; and

its bracing, exhilarating air imparts new vigor to the frame and sends back the smoke-dried denizens of great cities with new life and energy. In fine summer days the heat is never oppressive and the nights are always cool. There is something peculiarly balmy, soothing and yet invigorating in the summer breezes, whether on sea or land.

The barrens of Newfoundland which occupy the interior on the summits of hills and ridges are covered with scrubby vegetation, berry-bearing plants and dwarf bushes. These barrens are the homes of the caribou, and lovers of the gun will find enough to satisfy them in the exciting sport of deer-hunting.

The rivers are numerous, some of them attaining magnificent proportions. The largest are the Humber, Exploits, Gander, Terra Nova, Codroy and St. George. The Humber, flowing into the Bay of Islands, is about 80 miles long, and navigable about 15 miles for large vessels. The Exploits about 200 miles long, and navigable about 30 miles, discharges itself into Exploits Bay, draining about 4,000 square miles. It abounds with salmon and trout, and its banks are well wooded. The Gander, 100 miles long, discharges itself into Hamilton Sound. The Terra Nova is a large river flowing into Alexander and Bonavista Bays. The Codroy, on the west coast, flowing into the Gulf of St. Lawrence, is a broad stream. Its banks and valleys furnish pasture land which is unequalled. The river St George, on the west coast, flows into a bay of the same name, and receives a smaller stream called Harry's Brook

The lakes and ponds are said to cover a surface of nearly one-third of the island. Grand Lake, 56 miles long, by 5 miles wide, with an area of 200 square miles, contains an island (Glover Island) in its southern end, 21 miles long by 2 broad, and is drained by the River Humber. Coal has been discovered in the vicinity. Red Indian Lake, 37 miles by 3 miles, with an area of 69 square miles, drained by the Exploits. Gander Lake, which is 36 miles long, has an area of 44 square miles, and is drained by the River Gander. Deer Lake, about 15 miles long by 3 broad, is drained by the River Humber; on its banks are to be found large tracts of agricultural and timber lands.

Immense quantities of copper ore and iron pyrites have been shipped from Betts' Cove, Tilt Cove, Sutle Bay, and Pilley s Island, as well as iron from Bell Island. Lead, antimony gold, iron, silver, nickel and zinc are also found. Coal beds have been discovered in St. George's Bay and near Grand Lake. Granite, limestone, sandstone, marble, slate and brick clay are abundant. Asbestos is also found.

The principal trees are pine, spruce, birch, larch, willow, ash and fir, some of which attain to considerable size. Agriculture is carried on in several sections, especially in the river-valleys and in the neighborhood of the lakes. Potatoes yield well and are of excellent quality. Green crops thrive in many places, and kitchen-garden produce cannot be excelled in quality and flavor. Gooseberries, strawberries and raspberries are grown in large quantities.

The Newfoundland dog—famous the world over, as also of Landseer fame—is becoming very scarce, very few of the genuine breed now being found.

Among the wild animals may be enumerated the deer (caribou), wolf, bear (black and polar), fox (black, silver-grey and red), beaver, otter marten, wild cat, musk rat and arctic hare. Rabbits are numerous.

Land and sea birds are plentiful, the principal ones being the grepe or sea eagle, hawks, owls, king-fisher, robin, sparrow, raven, ptarmigan

(called partridge), plover, curlew, snipe, black duck, wild goose, gannet, and loon (or great northern diver.)

Seals are numerous, also whales, grampuses and porpoises. The cod of course abounds, no place being comparable to Newfoundland for this commodity. Herring, salmon, halibut, turbot, caplin and squid —the latter used for bait are in abundance. Lobsters are also abundant. the canned article constituting a very valuable export.

The famous banks of Newfoundland, viz.: the Grand Bank, Outer Bank, and St. Peter s Bank, swarm with codfish of all kinds. They form the most extensive elevation existing in any ocean, and occupy 6° long., and nearly 10° lat., being 600 miles in length and 200 miles in breadth, with a depth of water from 10 to 160 fathoms. The Labrador fishery is engaged during the months of June, July, August, September and part of October, many men are employed during this period. The seal fishery is next in importance, employing thousands of men.

The imports of Newfoundland consist of all articles used for food and clothing, as well as for domestic and fishing purposes The exports from Newfoundland and Labrador are: Dried codfish, herring, cod oil, seal oil, sealskins, pickled salmon, preserved salmon, and lobsters, copper, iron, iron pyrites, lumber, etc.

Steamship connections:

Between St. John s, Halifax and New York, fortnightly.

Between Montreal and St. John s, via Charlottetown, P. E. I. and Sydney, Cape Breton, fortnightly.

The Coastal Royal Mail Steamers. Fortnightly north and west, connecting with several Bay steamers and the Labrador steamer.

Reid-Newfoundland Co. s steamers encircle the Island, including Labrador.

The Public affairs of the Island are administered by a Governor and Executive Council of seven members. A Legislative Council of fourteen members, and a Legislative Assembly of thirty-six representatives. The Judicial Department comprises a Supreme Court with a chief and two assistant judges a Vice-Admirality Court and district courts, also circuit courts.

The public school system is based on the denominational principle, the grant from the general revenues for educational purposes being appropriated to the schools of the different denominations, according to the population. This system seems to be objectionable in the smaller places, where sometimes three schools will be found among a few hundred people, none of which have the means of providing a competent teacher. Higher education is provided for through colleges supported from the general education grant, and by tuition fees. and conducted denominationally. Bishop Field and Bishop Spencer Colleges (Episcopalian); St. Bonaventure College (Roman Catholic); besides Methodist, Presbyterian and Salvation Army Colleges. St. John's is an Examining Centre for Degrees of the London University.

The inhabitants of Newfoundland are principally descendants of the settlers from England, Ireland and Scotland. The aboriginal inhabitants, known as Beothicks, have been extinct for many years. There are still a few of the Micmacs on the Island.

Newfoundland is supposed to have been discovered by Norsemen about the year A. D. 1000. It was re-discovered by Sir John Cabot and his son Sebastian, on the 29th June, 1497. A settlement was subsequently formed by some Portuguese adventurers, who were expelled

by Sir Francis Drake, in the reign of Queen Elizabeth. After this period numerous English colonies were established from time to time along the eastern coast, and several French along the southern, in the Bay of Placentia. For a series of years the colony existed merely as a fishing settlement, and was much disturbed by the French, until in 1713, it was declared by the Treaty of Utrecht to belong wholly to Great Britain, the French reserving a right to fish on certain parts of the coast; the rocky islets of St. Pierre and Miquelon being also assigned to them, on condition that they should not be used for military purposes. The first governor of the Isalnd, Captian Osborne, was appointed in 1729, and the first legislative assembly met on January 1st, 1832.

Newfoundland has telegraphic communication with the old world by means of submarine cables connecting between Heart's Content, in Trinity Bay, (100 miles from St. John's), and Valentia, in Ireland, about 1,640 miles; also with the new world by means of submarine cable from Heart's Content to North Sydney, about 360 miles, where connection is made with the Western Union system.

In 1876 the Labrador, extending from Cape Chidley (Hudson's Strait) to Blanc Sablon (Strait of Belle Isle), including Hamilton Basin, was included in the colony of Newfoundland. Area about 12, 000 square miles. Population 1911, 3,949. Chief town, Battle Harbor. The population of Newfoundland including the Labrador, was shown by the 1903 census to be 220,984. Population (1911 census), 242,619. The present population is estimated at 260.000.

St. John's City, the capital of Newfoundland, situated on the peninsula of Avalon, the most eastern seaport and city of North America. The city is built on the slope of a hill, overlooking one of the best and most secure harbors in the world. One mile long by one-quarter mile wide completely landllocked and sheltered from every wind. The entrance through the "Narrows" bordered by lofty, rugged hills, with steep shores, is in its narrowest part about 33 yards wide. It has deep water on both sides. Within the harbor there are 16or 17 fathoms, gradually shoaling to the anchorage to 7 and 8 fathoms. The anchorage is good, and the harbor capable of receiving the largest ships afloat. There are a number of excellent wharves, both on the north and south sides.

The city received its name from having been discovered on St. John the Baptist's Day, June 20, 1497. St. John is the centre of a large portion of the trade of the island, which is 1,640 miles from Valentia, Ireland, this being the shortest distance between any tow seaports of Europe and America; 1076 miles north-east of Montreal; 885 from Boston, U. S. A.; 488 from, Halifax N. S.; 1213 from Sandy Hook, New York; 1921 from Liverpool, Eng.; 2060 miles from London, Eng. The "Narrows", before mentioned, were at one time strongly fortified, but the fortifications have been allowed to go into decay. Should the mother country again fortify the place the entrance to St. John's Harbor could be made the Gibraltar of the West, and Newfoundland, an ever-vigilant Lawrence would become the great bulwark of Canada.

St. John's has one of the finest dry docks (owned by the Reid-Nfld Co.) on the American side of the Atlantic, situated at head of the harbor. The dock was built of wood at a cost of $600,000, length 600 feet, width of body, 132½ feet, width of entrance 85 feet, draft of water over sill 25 feet. It has large and commodious stores and piers for the discharging and storing of cargoes, also fully equipped machine shops and every requisite for the repairs of disabled ships, either iron or wood. In connection with the dry dock there is an up-to-date twin-screw wrecking tug. There is a floating dock on the south side capable of receiving a vessel 250 tons.

The city is bounded by a line commencing at Chain Rock, thence running to the north-east corner of Deadman's Pond, thence to the north-east angle of the Penitentiary grounds, thence to the north-west angle of the R. C. Cemetery, thence to Allandale Bridge, thence to the Mundy Pond Road to its junction with Hamilton Street, thence to Simm's Bridge, thence following the centre of Waterford River to the Long Bridge, thence to Chain Rock, but not incliding any part of the south side.

St. John is the seat of Government and the residence of the Governor, Commander-in-Chief and Vice-Admiral over the island, and its dependencies, with an Executive Council of seven, a legislative council of fourteen, and a House of Assembly consisting of 36 members.

It is headquarters for all postal, money order and parcel post arrangements; Reid-Newfoundland Co. Express; chief port of entry, with a number of sub-ports in out-harbors.

The Anglo-American Telegraph Company, Ltd., head office, London, has cables connecting Heart's Content, in Trinity Bay, with Valentia in Ireland, and lines
